POWER REPAIR® NECK & CHEST TREATMENT

TREATMENT PRESENTATION

5101-33 Power Repair® Intensifier Elastin & Sorghum ampoule – 5 ml / 0.17 fl oz

2060-22 Lumafirm® Repair Cream – Lift & Glow – 100 g / 3.4 oz

MAIN USE/PURPOSE

To tone, smooth, and rejuvenate the appearance of the neck and chest area and as a preventive treatment.

IDEAL/RECOMMENDED FOR

- Skin with telltale aging signs on the neck and chest areas.
- The improvement of the appearance of neck and chest wrinkles and elastosis (saggy skin), pigmentation, and dehydration.

MAIN INGREDIENTS

Serum: Marine Elastin Polypeptides, Sorghum, Jasmine.

Cream: Kombucha, Diacetyl Boldine, Oligopeptide-68, Palmitoyl Tetrapeptides-7, Panthenol.

SCIENCE BEHIND THE TREATMENT

- Elastin Polypeptides – Marine Elastin protein fragments that reinforce the elastic network of the skin.

- Sorghum Extract – Extract from a cereal plant rich in polyols (sugars) that improves skin texture and tone.
- Diacetyl Boldine – Extract from the Chilean Boldo Tree Bark that inhibits Tyrosinase and combats free radicals.
- Kombucha – From fermented Black Tea, improves circulation and oxygen uptake by skin cells to improve performance while also helping retain adipocytes' triglycerides for tissue volume.

TREATMENT BENEFITS

- Tones, smooths wrinkles and refines texture
- Boosts elasticity and moisture
- Revitalizes and provides radiance
- Anti-free radicals

RAPID-RESTORE NECK & CHEST TREATMENT — PRODUCTS NEEDED

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Power Repair® Hydrating Cleanser
- Power Repair® Hydrating Toner
- Gentle Exfoliating Cleanser
- Power Repair® Intensifier - Elastin & Sorghum ampoule
- Lumafirm® Repair Cream – Lift & Glow
- Micro-Emulsion Massage Cream
- Ageless Skin Collagen Mask
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

TREATMENT CONTRAINDICATIONS

Open Wounds — Hypersensitive Skin

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard cleansing, focusing on the neck area.
3. Exfoliate	Apply Gentle Exfoliating Cleanser, massage gently.
4. Remove Exfoliant	Remove exfoliant with pads and moistened with warm water. Follow with toner.
5. Apply Serum	Apply 4-5 drops of Power Repair® Intensifier - Elastin & Sorghum ampoule all over neck and chest. Massage gently until completely absorbed.
6. Apply Massage Cream	Apply a small quantity of Micro-Emulsion Massage Cream. Proceed with massage (follow massage step-by-step protocol).
7. Apply Remove/Mask	a. Face Mask — Apply a tablespoon of Ageless Skin Collagen Mask with a mask brush all over neck and chest. Leave on for 15 minutes. b. Arm and hand massage, perform during masking using Micro-Emulsion Massage Cream. c. Remove the mask using pads moistened with cool water. Follow with the Power Repair® Hydrating Toner.
8. Moisturize/Protect	Moisturizer – Apply a small quantity of Lumafirm® Repair Cream – Lift & Glow all over neck and chest. Massage gently until completely absorbed.
9. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

SAMPLES: DISCUSS FEATURES VS. BENEFITS

Power Repair® Hydrating Cleanser

Features:

- Creamy cleanser
- Contains Sodium Lauroyl Oat Amino Acids, Marine Collagen, and Elastin
- Hydrosoluble
- Alcohol-free

Benefits:

- Cleanses thoroughly
- Moisturizes
- Preserves the hydrolipidic mantle

Ageless Skin Collagen Mask

Features:

- Micronized and microemulsified ingredients
- Contains Collagen Polypeptides, Green Tea, Kaolin, Bentonite
- For Mature skin

Benefits:

- Instant luminous results, delivers glow
- Age defense and youth-recovery
- Smooths lines and wrinkles
- Moisturizes, while toning the skin

pevonia®

LACTO-FLORA PEEL TREATMENT

TREATMENT PRESENTATION

5087-33 Lacto-Flora Peel – 1 bottle 4 oz/120 ml

MAIN USE/PURPOSE

Epidermal acid peel to smooth and enliven the skin complexion for improved appearance.

IDEAL/RECOMMENDED FOR

Dull, dry, mature, oily, acneic, thick, and hyperpigmented skin, except hypersensitive.

MAIN INGREDIENTS

30% L+ Lactic Acid

1% Pyruvic Acid

2% AHA Blend

Green Tea

pH 3.0

SCIENCE BEHIND THE TREATMENT

- L+ Lactic Acid is a natural and skin friendly Alpha Hydroxy Acid (AHA) that provides exfoliation, luminosity, and moisturizing benefits.
- AHA Blend – Glycolic Acid (Sugarcane), Citric Acid

(Citrus Fruits), Malic Acid (Apple) – support enhanced exfoliation and more even results.

- Pyruvic Acid from Hibiscus Flower – Supports exfoliation benefits, mitosis and enhanced skin renewal.
- This Acid Peel promotes skin renewal with surface exfoliation by breaking down desmosomes between epidermal cells, plus boosting the turnover of basal cells (mitosis).

TREATMENT BENEFITS

- Reveals an immediate glow for an improved appearance
- Smoother and more luminous skin texture with an even complexion
- Naturally moisturizes
- Controls surface bacteria to address oily and acneic skin conditions

LACTO-FLORA PEEL TREATMENT – PRODUCTS NEEDED

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Facial Cleanser
- Facial Lotion
- Micro-Emulsion Massage Cream
- Lacto-Flora Peel
- Neutralizing Gel
- Phyto-Gel Cleanser or CleanRefresh™ Foaming Oil Cleanser
- Sensitive Skin Mask or Soothing Gel Mask
- Reactive Skin Care Cream
- YouthRenew® Tinted Cream
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

TREATMENT CONTRAINDICATIONS

Sun Exposure – Sunburn – Hypersensitive Skin – Pregnancy – Strong Exfoliants

IT IS RECOMMENDED TO READ THE PEEL CAUTION SHEET THOROUGHLY BEFORE ANY PEVONIA PEEL APPLICATION.

PREPARATION

1. Pour 1 tsp or 5 ml of Lacto-Flora Peel into a product cup and set aside.
2. Pour 1 tsp or 5 ml of Neutralizing Gel into a product cup and set aside.
3. Prepare a bowl of ice and add water. Take 5 facial pads (4x4s) and soak them in the bowl of ice water and set aside. Always keep ice water clean.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face and lip cleansing.
3. Apply Peel	a. Apply Anti-Stress Eye Lotion to eye pads and cover eyes. Leave outer eye contour exposed. b. Apply a small quantity of the Micro-Emulsion Massage Cream on the nostril openings and on the lips. c. Apply Lacto-Flora peel with a Q-Tip starting mid-forehead, contour of the face, center of face and then neck. Keep ½ inch away from the eyes. Leave on 5 to 10 minutes depending on tolerance (mild tingling sensation is normal).
4. Neutralize Peel	a. Wet pads with ice water and remove peel thoroughly. b. Apply one tsp of Neutralizing Gel, then wet your hands with cold water and work the Neutralizing Gel all over neck and face to completely neutralize the peel's effect. c. Remove thoroughly with cold water. Remove eye pads. d. Use Cleanser to remove any leftover residue of peel. Remove the Cleanser with dry pads first, then with moist pads.
5. Apply Compresses	a. Remove iced pads from bowl. Squeeze slightly and cover the entire neck and face with the ice-cold pads. Leave on for 5 minutes. The skin should appear calm and cool. If not, apply iced pads for a second time. b. Remove pads, and then wipe skin with Facial Lotion .
6. Apply/Remove Mask	a. Apply eye pads moist with Anti-Stress Eye Lotion. Apply Sensitive Skin Mask or Soothing Gel Mask covering neck and face ¼ of an inch away from eyes. Apply evenly. Leave mask on for 15 minutes. b. Rinse mask with pads moist with ice-cold water. c. Follow with Facial Lotion .
7. Moisturize/Protect	a. Moisturize – Apply Reactive Skin Care Cream all over face and neck. Massage gently until absorbed. b. Apply YouthRenew™ Tinted Cream (Client must avoid direct sun exposure while recovering.)
8. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

pevonia®

LUMAFIRM® ESCUTOX FREEZE DRIED LIFT & GLOW TREATMENT

TREATMENT PRESENTATION

4056-33 Escutox® Freeze-Dried box with 10 treatments

2062-22 Lumafirm® Repair Mask – 100 g

2060-22 Lumafirm® Repair Cream Lift & Glow – 100 g

MAIN USE/PURPOSE

Instantly addresses hyperpigmentation and sagging skin.

IDEAL/RECOMMENDED FOR

Mature skin with discolorations and lack of tone.

MAIN INGREDIENTS

Freeze-Dried: Hibiscus Esculentus Extract, Squalane, Algae Oligosaccharides.

SCIENCE BEHIND THE TREATMENT

- Hibiscus Esculentus Extract – Neuropeptide that inhibits neuromuscular contractions to smooth and relax wrinkles.

- Diacetyl Boldine is a Chilean Boldo Tree Bark Extract that has been proven to inhibit tyrosinase, the enzyme that causes pigmentation, thereby reducing discolorations and providing strong anti-free radicals benefits.
- Kombucha is the fungal byproduct of the fermentation of black tea with a strand of bacteria and yeast. It is an agent that promotes skin circulation and the storage of fat in adipocytes for volumizing benefits.

TREATMENT BENEFITS

- Immediate toning and illuminating effect
- Powerful anti-free radicals effect
- Revitalizes, tones, and smooths the skin
- Supports skin wellness

LUMAFIRM® FREEZE-DRIED LIFT & GLOW TREATMENT- PRODUCTS NEEDED:

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Power Repair® Hydrating Cleanser
- Power Repair® Hydrating Toner
- Choice of Enzyme: Enzyme Powder Mask or Enzymo-Sphérides® Peeling Cream or Foam-A-Zym™

- Escutox® Freeze-Dried Treatment
- Lumafirm® Repair Mask
- Lumafirm® Eye Contour
- Micro-Emulsion Massage Cream
- Lumafirm® Repair Cream — Lift & Glow
- Rapid-Restore Lip Balm
- Eye Product according to concerns
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

TREATMENT CONTRAINDICATIONS

Sunburn – Acneic Skin – Use of Strong Exfoliants – Open Wounds – Hypersensitive Skin

PREPARATION

1. Prepare the Choice of Enzyme according to instructions on the Pevonia How To Treatment Standards document.
2. Prepare the Escutox® Freeze-Dried: Take one piece and cut into quarters, place in cup and add 1 tsp of water, mix until a smooth gel texture is obtained. Set aside.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Exfoliate	Apply the Choice of Enzymes accordingly.
4. Remove Enzymes	Apply Cleanser and thoroughly remove enzymes. Follow with Power Repair® Hydrating Toner.
5. Apply Freeze-Dried	Escutox® Freeze-Dried Treatment – Mix prepared Escutox® thoroughly and apply over face and neck. Proceed with wrinkle smoothing specific target massage. Keep Escutox® moist to facilitate massage for desired length of time (8-10 mins).
6. Apply/Remove Mask	a. Eye Mask: Apply Lumafirm® Eye Contour around eyes. Cover with pads moist with Anti-Stress Eye Lotion. b. Face Mask – Apply Lumafirm® Repair Mask over face and neck. Leave on for 15 minutes. c. Arm and hand massage, perform during masking using Micro-Emulsion Massage Cream. d. Rinse mask with pads moistened with cool water. e. Follow with Power Repair® Hydrating Toner.
7. Moisturize/Protect	a. Apply Lumafirm® Repair Cream — Lift & Glow over face, neck, and décolleté/chest. b. Eye/Lip Product – Customize according to concerns. c. Apply Lumafirm® Repair Cream Lift & Glow to neck and décolleté. d. Apply YouthRenew® Tinted Cream.
8. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

TREATMENT PRESENTATION

3804-22 Professional Treatment Box containing 5 treatments:

Step 1: Micro-Retinol® Essential Peel 5 ml / 0.17 fl oz (5 count)

Step 2: Micro-Retinol® Essential Serum 5 ml / 0.17 fl oz (5 count)

Step 3: Micro-Retinol® Essential Mask 7 ml / 0.24 fl oz (5 count)

MAIN USE/PURPOSE

To assist in the instant resurfacing and visible improvement of advanced aging signs.

IDEAL/RECOMMENDED FOR

All mature skin types with lines, wrinkles, folds, irregular texture, and discolorations. Glogau III and IV.

MAIN INGREDIENTS

Peel: Micro-Retinol® (Vitamin A + Vitamin C + Vitamin E), Lactic Acid, Glycolic Acid

Serum: Micro-Retinol®, Hyaluronic Acid

Mask: Micro-Retinol®, Kaolin, Bentonite, Shea Butter

SCIENCE BEHIND THE TREATMENT

- Micro-Retinol is a refined, micro-fragmented form of retinol with greater dispersion.
- Overcomes the typical problems of standard Vitamin A formulations such as oxidation and dwindling potency.
- It is obtained from double enzymatic hydrolysis and stabilized with Vitamin C and Vitamin E antioxidants.
- Lactic and Glycolic Acids are Alpha Hydroxy Acids that provide exfoliation, lightening and texture-refining benefits. Combined with Micro-Retinol®, they serve as the perfect acid peel base for a resurfacing treatment.
- The Micro-Retinol® Essential Peel Treatment is a multi-step combination of three main components: An acid peel, a serum, and a mask.

TREATMENT BENEFITS

- Immediate texture smoothing, luminosity, and beaming skin look
- Combats sagging skin
- Reveals an immediate glow for a more youthful-looking appearance

TREATMENT TECHNOLOGIES

Micro-Retinol® is obtained from a double enzymatic process:

Step 1: Retinyl Palmitate + Hydrolase → Retinol

Step 2: Retinol + Carotene Dioxygenase → Micro-Retinol®

Micro-Retinol® is further stabilized with Vitamin C and Vitamin E for increased anti-oxidant properties and benefits.

- The peel is formulated in a gel base for better coverage.
- Has a low pH and optimal concentration of Lactic and Glycolic Acids.
- Produces immediate skin exfoliation upon contact with the epidermis by different mechanisms: Surface breakdown of corneum cells and basal cell layer stimulation for increased turnover (mitosis).
- During the process, Micro-Retinol® particles are delivered within the skin to commence corrective treatment of damaged epidermal architecture for overall rejuvenation.

MICRO-RETINOL® ESSENTIAL PEEL TREATMENT – PRODUCTS NEEDED

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Facial Cleanser
- Facial Lotion
- Phyto-Gel Cleanser or CleanRefresh™ Foaming Oil Cleanser
- Micro-Emulsion Massage Cream
- Micro-Retinol® Essential Peel Treatment Box
- Neutralizing Gel
- Micro-Retinol® Essential Moisturizer
- Rapid-Restore Lip Balm
- Lumafirm® Repair Cream Lift & Glow
- 'C' Evolutive Eye Gel
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

TREATMENT CONTRAINDICATIONS

Pregnancy – Hypersensitive Skin – Sunburn – Sun Exposure – Strong Exfoliants

It is recommended to read the peel caution sheet thoroughly before any Pevonia Peel Application.

PREPARATION

1. Take one of each product from the box:
 1. Micro-Retinol® Essential Peel (empty into cup)
 2. Micro-Retinol® Essential Serum (empty into cup)
 3. Micro-Retinol® Essential Mask (empty into cup right before use)
2. Prepare a bowl of ice and add water. Soak 5 facial pads (4x4s) in the bowl of ice water. Set aside. Always keep the ice water clean.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Apply Peel	a. Apply eye pads. Then apply Micro-Emulsion Massage Cream to nostrils and mouth commissures to protect the skin. Apply Micro-Retinol® Essential Peel with a Q-Tip starting mid-forehead, contour of the face, center of face, and then neck. Keep Micro-Retinol® Peel outside the orbital bone surrounding the eye area. Leave on 5 to 7 minutes (mild tingling sensation is normal). b. Wet pads with ice water and remove peel thoroughly.
4. Neutralize Peel	a. Apply one teaspoon of Neutralizing Gel, then wet your hands with cold water and work the Neutralizing Gel all over neck and face to completely neutralize the peel's effect. b. Remove thoroughly with cold water. Remove eye pads. c. Use Phyto-Gel Cleanser or CleanRefresh® Foaming Cleanser to remove any leftover residue of peel. Remove the Cleanser with dry pads first, then with moist pads.
5. Apply Compresses	a. Remove iced pads from bowl. Squeeze slightly and cover the entire neck and face with iced cold pads. Leave on for 5 minutes. The skin should appear calm and cool. If not, reapply iced cold pads for a second time. b. Remove pads, and then wipe skin with Facial Lotion .
6. Apply Serum	a. Apply Micro-Retinol® Essential Serum all over face and neck. b. Proceed with massage. Massage well until completely absorbed. Focus on areas of concern.
7. Apply/Remove Mask	a. Apply eye pads moist with Anti-Stress Eye Lotion. Apply (#3) Micro-Retinol® Essential Mask covering neck and face ¼ of an inch away from eyes. Apply evenly. Leave on 15 minutes. b. Rinse Mask with pads moist with ice-cold water. c. Follow with Facial Lotion .
8. Moisturize/Protect	a. Apply the Micro-Retinol® Essential Moisturizer all over face and neck. Massage gently until absorbed. b. Eye/Lip Product – Apply 'C' Evolutive Eye Gel and Rapid Restore Lip Balm. c. Apply Lumafirm® Repair Cream Lift & Glow (on décolleté). d. Apply YouthRenew™ (Client must avoid direct sun exposure while recovering.)
9. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

MYOXY-CAVIAR® MASK TREATMENT

TREATMENT PRESENTATION

5200-33 Professional Treatment Box containing 5 treatments:

Step 1: Intensifier - Collagen & Myoxy-Caviar® Ampoule — 5 ml/0.17 fl oz (5 count)

Step 2: Escutox® Freeze-Dried disc (5 count)

Step 3. Myoxy-Caviar® Mask (Cream) — 12 ml/0.4 oz (5 count)

Step 4. Myoxy-Caviar® Mask Powder — 115 g per pouch (5 count)

MAIN USE/PURPOSE

To revitalize, relax wrinkles, oxygenate and deeply moisturize mature skin types.

IDEAL/RECOMMENDED FOR

Mature, dry, dehydrated, and dull skin.

MAIN INGREDIENTS

Ampoule: Caviar Extract, Marine Collagen Polypeptides

Freeze-Dried: Escutox®

Mask Powder: Magnesium Trisilicate/Calcium Carbonate

SCIENCE BEHIND THE TREATMENT

- Caviar – Intracellular extract from caviar roe made up of proteins, lipids, vitamins, and minerals that oxygenate skin tissues and stimulate cellular function to support skin rejuvenation.

- Marine Collagen Polypeptides – Compatible amino acid chains that plump and smooth fine lines and wrinkles.
- Escutox® – A freeze-dried, patented complex of oligopeptides from Hibiscus Esculentus (natural neuropeptide) Extract. Combined with Algae and Squalane, it relaxes muscle contraction to smooth and reduce the appearance of lines and wrinkles.
- Mask Powder – Calcium Carbonate and Magnesium Trisilicate minerals combine to harden causing a bi-thermal action that warms the mask. This causes dilation for actives' penetration and then cools to seal in ingredients and tone the skin.

TREATMENT BENEFITS

- Mature skin renewal, plumping, and smoothing of lines and wrinkles.
- Delivers skin's lost lipids, amino acids & vitamins, while deeply moisturizing.
- Enriches and repairs epidermal components.

- Timeless Repair Serum
- Timeless Repair Cream
- Timeless Eye Contour

SAMPLES: DISCUSS FEATURES VS. BENEFITS

Timeless Balm Cleanser

Features:

- Innovative balm texture that spreads easily
- Gentle foaming action
- Hydrosoluble
- Alcohol-free

Benefits:

- Removes impurities thoroughly and softly
- Provides repairing ingredients while cleansing
- Moisturizes deeply

Timeless Repair Cream

Features:

- Triphase high performing formula
- Contains Caviar Extract, Escutox® and repairing vitamins
- Homogenized

Benefits:

- Texture smoothing and deeply moisturizing
- Repairing and toning
- Softens and relaxes lines and wrinkles

TREATMENT PRESENTATION

5201-33 Professional Treatment Box containing 5 treatments:

Step 1: Vitaminic Ampoule — 5 ml / 0.17 fl oz (5 count)

Step 2: Anti-Free Radicals Mask Powder — 115 g/pouch (5 count)

MAIN USE/PURPOSE

Help skin recover from ongoing free radical damage while deeply replenishing depleted lipids and moisture.

IDEAL/RECOMMENDED FOR

Dry, aging, alipidic skin.

MAIN INGREDIENTS

Ampoule: Vitamins A & E, Azulene, and Mandarin Oil

Powder: Menthol and Lavender Oil, Magnesium Trisilicate/Calcium Carbonate

SCIENCE BEHIND THE TREATMENT

- Vitamin A – Antioxidant that fights free radicals, restructures normal skin function.
- Vitamin E – Antioxidant that fights free radicals, protects cells and performance.

- Azulene, from chamomile, is a skin soothing and healing lipid. Blue color.
- Mandarin Oil is a revitalizing and antioxidant lipid. Gives the aroma to the ampoule.
- Menthol promotes a cooling sensation, and Lavender provides soothing and repairing benefits.
- Calcium Carbonate and Magnesium Trisilicate Minerals cause a bi-thermal action that warms the mask. This causes dilation to enhance penetration, and then cools to seal in ingredients and firm the skin.

TREATMENT BENEFITS

- Revitalizes dull skin, smooths appearance of fine lines, and neutralizes free radicals
- Deeply enriches and relieves excessive dryness
- Skin feels fresh, toned and taut

ANTI-FREE RADICALS MASK TREATMENT — Products Needed:

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- CleanRefresh™ Foaming Oil Cleanser
- Facial Cleanser
- Facial Lotion
- Choice of Enzyme: Enzyme Powder Mask or Enzymo-Sphérides® Peeling Cream or Foam-A-Zym™

- CleanRefresh™ Foaming Oil Cleanser
- Sensitive Skin Lotion
- Enzymo-Sphérides® Peeling Cream
- Eye Product according to concerns
- Vitaminic Concentrate
- Rejuvenating Dry Skin Care Cream

SAMPLES: DISCUSS FEATURES VS. BENEFITS

Enzymo-Sphérides® Peeling Cream

Features:

- High-tech sphérulites enzymatic entrapment that keeps papaya and pineapple enzymes isolated and inert until the sphérulites break down and deliver the enzymes after application on the skin
- Water will activate the enzymes for full performance

Benefits:

- Softens and facilitates the removal of dead cells and helps reduce clogged pores
- Exfoliates and leaves a radiant complexion
- Enhances absorbency of actives

CleanRefresh™ Foaming Oil Cleanser

Features:

- Family-friendly foaming oil that cleanses thoroughly without drying
- Non-greasy aromatic formula
- Does not alter the skin's pH

Benefits:

- Thorough cleansing without irritation
- Leaves the skin smooth and supple
- Can be used for enzyme removal

Eye Product according to concerns

Features:

Depending on product and skin concerns:

- High-performing eye contour, gentle and effective formulations deliver moisture, correction, and protection
- Safe for contact lens wearers

Benefits:

Depending on product and skin concerns:

- Smoothing of lines and wrinkles
- Blurs imperfections and conceals
- Promotes toning and helps prevent sagging (eye bags)
- Deeply moisturizing for eye contour

Rejuvenating Dry Skin Care Cream

Features:

- Tri-phase homogenized moisturizer
- Select ingredients that normalize dryness and enrich the skin. Contains Marine Collagen, Royal Jelly, Honey.

Benefits:

- Moisturizes deeply
- Revitalizes and smooths fine lines and wrinkles
- Softens and relieves feeling of tight skin

pevonia®

PLANTOMER® LIFT-OFF MASK TREATMENT

TREATMENT PRESENTATION

5202-33 Professional Treatment Box containing 5 treatments:

Step 1: Propolis Ampoule — 5 ml / 0.17 fl oz (5 count)

Step 2: Plantomer Mask Powder — 29.8 g per pouch (5 count)

MAIN USE/PURPOSE

To effectively calm, soothe, and moisturize sensitive skin.

IDEAL/RECOMMENDED FOR

All skin types and conditions, especially sensitive, inflamed, dehydrated, dehydrated, and acneic.

MAIN INGREDIENTS

Ampoule: Propolis, Lavender, Vetiver

Mask Powder: Laminaria Digitata

SCIENCE BEHIND THE TREATMENT

- Propolis – Natural beehive resins produced by worker bees from the Jura Mountains in France. Natural antiseptic that revitalizes and repairs. Formulated with Lavender and Vetiver for additional calming and soothing benefits.

- Mask Powder – Laminaria Digitata is a brown algae rich in calcium and magnesium as well as other minerals that stimulates circulation and works as a humectant to bind moisture to the skin. In combination with calcium phosphate and sodium phosphate, it forms a soft gelatinous mask.

TREATMENT BENEFITS

- Fast relief of redness and irritation
- Binds moisture to the skin
- Strengthens, calms and soothes

PLANTOMER MASK TREATMENT — PRODUCTS NEEDED

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Facial Cleanser
- Facial Lotion

pevonia®

LUMINOUS "C" & "SEA"® MASK TREATMENT

TREATMENT PRESENTATION

5203-33 Professional Treatment Box containing 5 treatments:

Step 1: "C" Complexe with Oxyzomes Ampoule - 5ml / 0.17 fl oz (5 count)

Step 2: Seaweed Freeze-Dried (5 count)

Step 3: Luminous "C" & "Sea"® Mask Powder- 29.8 g per pouch (5 count)

MAIN USE/PURPOSE

To revitalize dull skin, smooth appearance of lines and wrinkles, deliver glow, and detox.

IDEAL/RECOMMENDED FOR

All skin types, smokers, and sun lovers, devitalized and dull skin with first signs of aging.

MAIN INGREDIENTS

Ampoule: "C" Complexe with Oxyzomes

Freeze-Dried: Seaweed (Freeze-Dried Spirulina)

Mask Powder: Laminaria Digitata, Orange Peel Oil

SCIENCE BEHIND THE TREATMENT

- Ampoule - "C" Complexe with Oxyzomes – Time release liposomic structure made up of Lecithin, containing Vitamin C (Magnesium Ascorbyl Phosphate), and Vitamin E to support collagen synthesis, combat free radicals, and even the skin.

- Freeze-Dried Seaweed – Spirulina – A blue-green algae rich in proteins, vitamins, essential fatty acids and minerals. Used as a humectant to preserve moisture, soothe, and mineralize while detoxifying.
- Mask Powder – Contains Laminaria Digitata – A brown seaweed or kelp micronized for cellular usage. Preserves moisture and detoxifies.
- Mask Powder – Orange Peel Oil – Derived from the Sweet Orange, this oil revitalizes and moisturizes.

TREATMENT BENEFITS

- Leaves the skin luminous and radiant
- Antioxidant and corrective, rejuvenates the appearance
- Plumps, helps reduce appearance of fine lines, and detoxifies

Luminous "C" & "Sea"® Mask Treatment — Products Needed

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Facial Cleanser
- Facial Lotion
- Choice of 'C' Evolutive Eye Gel, Evolutive Eye Cream, Lumafirm® Eye Contour
- Enzymes Powder Mask
- Phyto-Gel Cleanser or CleanRefresh™ Foaming Cleanser
- "C" Complexe with Oxyzomes Ampoule
- Freeze-Dried Seaweed
- Luminous "C" & "Sea"® Mask Powder
- Dry Skin Care Cream
- Micro-Emulsion Massage Cream
- YouthRenew™ Tinted Cream
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™
- Rapid-Restore Lip Balm

TREATMENT CONTRAINDICATIONS

Claustrophobia — Hypersensitive Skin — Sunburn

PREPARATION

1. Prepare "C" Complexe with Oxyzomes Concentrate Ampoule: Empty all contents in product cup.
2. Prepare Freeze-Dried Seaweed: Open pouch, fold sheet in two. Cut crisscross in 4 small squares, place in cup, add 1 tablespoon of cool water, and mix until a smooth gel texture is obtained. Set aside.
3. Enzymes Powder Mask: prepare according to instructions on the Pevonia How To/Treatment Standards document.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Exfoliate	Apply the Enzyme Powder Mask accordingly.
4. Remove Enzymes	Apply Cleanser and thoroughly remove Enzymes. Follow with Facial Lotion .
5. Apply Ampoule	"C" Complexe with Oxyzomes – Apply $\frac{3}{4}$ of the contents all over face and neck and focus on areas of concern (lines and wrinkles, hyperpigmentation). Massage until completely absorbed, leaving a small amount for end of treatment.
6. Apply Freeze-Dried	Mix prepared Seaweed gel and apply over skin. Massage, keeping hands moist with water so hands glide easily on the skin. Recommended massage time is 8-10 minutes.
7. Apply/Remove Mask	a. Eye Mask – Apply choice of Eye Mask around eyes and cover eyes with eye pads moist with Anti-Stress Eye Lotion. b. Face Mask – Apply Luminous "C" & "Sea" high performance mask (see How To Pevonia Treatment Standards document). Leave on for 15 minutes. c. Arm and hand massage, perform during masking using Micro-Emulsion Massage Cream. d. Remove mask: Loosen perimeter with fingers, then lift off. Remove any residue with cool, wet 4x4s. e. Follow with Facial Lotion.
8. Moisturize/Protect	a. "C" Complexe with Oxyzomes Ampoule – apply remainder on face and neck. b. Moisturizer – Apply Dry Skin Care Cream or Moisturizer according to skin type. c. Apply Rapid Restore Lip Balm and Eye Product – Customize according to concerns. d. Apply Lumafirm® Repair Cream Lift & Glow on neck & décolleté. e. Apply YouthRenew™ Tinted Cream.
9. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

HOW TO SELL

- Toning and sagging prevention (eye bags)
- Deeply moisturizing

TREATMENT PRESENTATION

- 5204-33 Professional Treatment Box containing 5 treatments:
 - RS2 Concentrate Ampoule 5ml / 0.17 fl oz (5 count)
 - Seaweed Micro-Powder pouch – 2.2 g pouch/each (5 count)
 - RS2 Mask Powder pouch – 115 g pouch/each (5 count)

MAIN USE/PURPOSE

To minimize and calm the symptoms of Rosacea while supporting skin repair.

IDEAL/RECOMMENDED FOR

Rosacea, erythrosis, couperosis, excessive redness and capillary congestion.

MAIN INGREDIENTS

- Green Tea
- Licorice
- Rose Oil
- Lithothamnium Calcareum
- Magnesium Trisilicate/Calcium Carbonate

SCIENCE BEHIND THE TREATMENT

- Green Tea – Reduces irritation and redness
- Licorice – Vasoconstricts to soothe and reduce irritation and redness

- Rose Oil – Reduces irritation and provides a calming aroma
- Lithothamnium Calcareum – A brown algae rich in Calcium and Magnesium as well as other minerals that stimulates circulation and works as a humectant to bind moisture to the skin
- Mask Powder – Calcium Carbonate and Magnesium Trisilicate minerals combine to harden and cause a bi-thermal action. The mask first warms to cause dilation to enhance actives' penetration and then cools to seal in ingredients and firm the skin. Enriched with Rose Oil to help reduce irritation

TREATMENT BENEFITS

- Relieves symptoms of Rosacea
- Reduces heat in surface tissue
- Flushes stagnated capillaries

pevonia®

SKINFIT MYOXY-CAVIAR® MASK TREATMENT — FOR HIM

TREATMENT PRESENTATION

5205-33 Professional Treatment Box containing 5 treatments:

Step 1. Escutox® Freeze-Dried (5 count)

Step 2. SkinFit Myoxy-Caviar® Repair Mask (5 count)

Step 3. SkinFit Myoxy-Caviar® Powder Mask – 29.8 g (5 count)

MAIN USE/PURPOSE

Rejuvenating, revitalizing, enlivening, and deeply moisturizing men's treatment to renew essential nutrients while stimulating cellular metabolism and oxygenation.

IDEAL/RECOMMENDED FOR

All mature male skin.

MAIN INGREDIENTS

Escutox®

Caviar

Collagen and Elastin

Algin and Diatomaceous Earth

SCIENCE BEHIND THE TREATMENT

- Escutox® – A freeze-dried proprietary complex of oligopeptides from Hibiscus Esculentus Extract combined with Algae and Squalane to relax the neurotransmitters in the skin, resulting in the smoothing of fine lines and diffusing wrinkles.

- Caviar – Intracellular extract from Sturgeon Roe made up of proteins, lipids, water, vitamins, and minerals that rebuilds the skin, improves cellular function, moisturizes, and smooths.
- Collagen and Elastin – Marine derived proteins that bind moisture to the skin, cause immediate plumping, tone, and smooth lines.
- Mask Powder – Algin and Diatomaceous Earth – humectants that bind moisture to the skin, especially in epidermal layers, while toning.

TREATMENT BENEFITS

- Revitalizes dull skin, helps smooth appearance of fine lines and wrinkles
- Nourishes and repairs epidermal components
- Supports skin's amino acids & nutrients

PEVONIA SKINFIT MYOXY-CAVIAR® MASK TREATMENT — PRODUCTS NEEDED

- Choice of Pevonia Aromatherapy Oil
- Facial Cleanser
- Facial Lotion
- Anti-Stress Eye Lotion
- Enzymes Powder Mask
- Phyto-Gel Cleanser or CleanRefresh™ Foaming Oil Cleanser
- Escutox® Freeze-Dried
- Micro-Emulsion Massage Cream
- SkinFit Myoxy-Caviar® Repair Mask
- SkinFit Myoxy-Caviar® Mask Powder
- Collagen Boost Face Balm
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

TREATMENT CONTRAINDICATIONS

Sunburn — Hypersensitive Skin — Recent Use of Exfoliants

PREPARATION

1. Enzymes Powder Mask: Prepare according to instructions on the Standard How To For Treatments document.
2. Escutox® Freeze-Dried: Cut into quarters, place in cup and add 1 tsp of water, mix until a smooth gel is obtained. Set aside.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Exfoliate	Apply the Enzymes Powder Mask accordingly.
4. Remove Enzymes	Apply Cleanser and thoroughly remove enzymes.
5. Apply Freeze-Dried	Apply Escutox® Freeze-Dried over face and neck. Keep moist with water and massage on all lines and wrinkles. Keep moist with water and perform target massage on all areas of concern.
6. Apply/Remove Mask	a. SkinFit Myoxy-Caviar® Repair Mask — Apply 1½ tsp all over face and neck, ¼ inch away from the eye area. Massage mask with fingertips until mask becomes "tacky" (5-8 minutes). b. Remove this Mask from eye area with cool water. Blot dry. c. Eye Pads – Cover eyes and eyebrows with eye pads moist with Anti-Stress Eye Lotion. d. SkinFit Myoxy-Caviar® Powder Mask – Prepare and apply on face and neck according to instructions on the Pevonia How To Treatment Standards document. Leave on for 15 minutes. e. Arm and hand massage, perform during masking using Micro-Emulsion Massage Cream. f. Remove face mask: Release the edges of the mask and lift off in one piece. Remove any residue with cool 4x4s, remove eye mask with eye pads. g. Follow with Facial Lotion .
7. Moisturize/Protect	Moisturizer – Apply Collagen Boost Face Balm.
8. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

- Aqua-Gel Foaming Cleanser
- Easy-Glide Shaving Emulsion
- Soothing After Shave Balm
- Collagen Boost Face Balm
- Collagen Boost Eye Contour

SAMPLES: DISCUSS FEATURES VS. BENEFITS

Easy-Glide Shaving Emulsion

Features:

- Treatment for easy and gentle shaving
- Hair and skin coating emulsion
- Contains Safflower, Chamomile, Lavender

Benefits:

- Protects the skin while shaving
- Softens and helps reduce symptoms of sensitivity
- Assists in preventing ingrown hair (pseudo-folliculitis) and razor burn

Soothing After Shave Balm

Features:

- Microemulsified calming balm
- Contains Safflower, Portulaca, Green Tea, Lavender

Benefits:

- Soothes and repairs
- Cools and moisturizes
- Assists in preventing ingrown hair (pseudo-folliculitis)

Collagen Boost Face Balm

Features:

- Microemulsified repairing balm
- Contains Marine Collagen, Marine Elastin, Palmitoyl Tetrapeptide-7, Vitamin E

Benefits:

- Tones, rejuvenates, and helps repair sun damage
- Aids in smoothing appearance of lines and wrinkles
- Revitalizes and moisturizes

Collagen Boost Eye Contour

Features:

- Microemulsified repairing fluid for eye contour
- Contains Marine Collagen, Acetyl Hexapeptide-8, Hyaluronic Acid

Benefits:

- Renews, moisturizes, and repairs
- Reduces puffiness and tones
- Smooths appearance of lines and wrinkles

pevonia®

ELASTO-FIRM MASK TREATMENT

TREATMENT PRESENTATION

5206-33 Elasto-Firm Mask (5 count)

5101-33 OPower Repair® Intensifier - Elastin & Sorghum ampoule (5 count)

MAIN USE/PURPOSE

To deliver radiance, moisture, and smooth loose and devitalized skin with lines, wrinkles, and elastosis.

IDEAL/RECOMMENDED FOR

Dry, aging, alipidic skin.

MAIN INGREDIENTS

Elasto-Firm Mask

Power Repair® Intensifier - Elastin & Sorghum ampoule

SCIENCE BEHIND THE TREATMENT

- Elastin and Collagen Fiber Mask — A sheet mask containing both Elastin and Collagen to moisturize, plump and firm the skin, while creating an ideal epidermal environment conducive to ingredient absorption.

- Power Repair® Intensifier - Elastin & Sorghum ampoule — Elastin Polypeptides increase skin elasticity, moisture, and turgor in the deeper layers of the skin while Sorghum contains natural polyols (sugars) that bind moisture and also form a supporting net that helps make the epidermis tauter.

TREATMENT BENEFITS

- Instant moisturizing effect
- Increase of elasticity and turgor
- Plumping effect to reduce lines and wrinkles

ELASTO-FIRM MASK TREATMENT — PRODUCTS NEEDED

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Facial Cleanser
- Facial Lotion
- Enzymes Powder Mask
- Phyto-Gel Cleanser or CleanRefresh™ Foaming Oil Cleanser
- Soothing Sensitive Skin Cream
- Elasto-Firm Mask (One Power Repair® Intensifier - Elastin & Sorghum ampoule, One Elasto-Firm Sheet Mask)
- Choice of 'C' Evolutive Eye Gel, Evolutive Eye Cream, Lumafirm® Eye Contour
- YouthRenew™ Tinted Cream
- Micro-Emulsion Massage Cream
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™
- Rapid-Restore Lip Balm

TREATMENT CONTRAINDICATIONS

NONE (DO NOT USE ENZYME POWDER STEP ON HYPERSENSITIVE SKIN)

PREPARATION

1. Enzymes Powder Mask: Prepare according to instructions on the Pevonia How To Treatment Standards document.
2. Prepare Power Repair® Intensifier - Elastin & Sorghum ampoule by twisting off cap and emptying contents into a product cup and set aside.
3. Take 1 sheet of Elasto-Firm Mask, remove triangle cut out at the base of the mask and set aside for application on the nose.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Exfoliate	Apply the Enzymes Powder Masks accordingly.
4. Remove Enzymes	Apply Cleanser and thoroughly remove Enzymes.
5. Apply Ampoule	Apply $\frac{3}{4}$ of Power Repair® Intensifier - Elastin & Sorghum ampoule all over face and neck. Massage until completely absorbed. Keep remaining product for end of the treatment.
6. Apply/Remove Mask	a. Face Mask — Apply and hold sheet mask over face and neck. Then, take a sponge or 4x4 with cool water and press it against the mask, until it is completely moist and adhered to the skin. Shape the mask in place, put on the nose-piece and Leave on for 15 minutes. b. Arm and hand massage, perform during masking using Micro-Emulsion Massage Cream. c. Roll mask down to remove, do not wipe the skin. d. Apply a small amount of your choice of eye product around the eyes, $\frac{1}{4}$ inch from the lashes, and massage gently until absorbed.
7. Moisturize/Protect	a. Ampoule — Apply remainder of ampoule over face and neck, and massage gently until absorbed. b. Moisturizer — Apply Soothing Sensitive Skin Cream or any cream according to skin type. c. Apply Rapid Restore Lip Balm. d. Apply YouthRenew™ Tinted Cream.
8. Conclusion	Finishing Mist — Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

- Deeply moisturizing for eye contour

pevonia®

OXY-VITAL MASK TREATMENT

TREATMENT PRESENTATION

5207-33 Oxy-Vital Mask (5 count)

Soothing Formula Ampoule (5 count)

MAIN USE/PURPOSE

To calm, soothe, and moisturize irritated skin, bringing fast relief.

IDEAL/RECOMMENDED FOR

For all skin needing moisture and repair

Great for sunburn and post-peel (without the Enzymes Powder Mask).

MAIN INGREDIENTS

Mask Sheet: Aloe, Azulene, and Collagen Fiber

Soothing Formula Ampoule: Green Tea, Chamomile, Aloe, Calendula

SCIENCE BEHIND THE TREATMENT

- Oxy-Vitalr Mask — Creates a repairing environment on the skin's surface with Collagen, Aloe, and Azulene to rapidly reduce irritation, discomfort, and visible redness (erythema), increase moisture, and cool down skin temperature.
- Soothing Ampoule — Green Tea, Chamomile, Aloe, Calendula — all soothing, antioxidant, and natural anti-irritation ingredients that enhance skin repair, moisture, and recovery.

TREATMENT BENEFITS

- Instant moisture, plumping lines and wrinkles
- Calming and repairing
- Helps reduce redness

OXY-VITAL MASK TREATMENT -PRODUCTS NEEDED:

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Facial Cleanser
- Facial Lotion
- Enzymes Powder Mask
- Phyto-Gel Cleanser or CleanRefresh™ Foaming Oil Cleanser
- Oxy-Vital Mask (One Soothing Ampoule, One Collagen Fiber Sheet Mask)
- Choice of 'C' Evolutive Eye Gel, Evolutive Eye Cream, Lumaform® Eye Contour
- Lumaform® Repair Cream Lift & Glow
- Micro-Emulsion Massage Cream
- Reactive Skin Care Cream
- YouthRenew™ Tinted Cream
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™
- Lumaform® Repair Cream Lift & Glow

TREATMENT CONTRAINDICATIONS

NONE (DO NOT USE ENZYME POWDER STEP ON HYPERSENSITIVE SKIN)

PREPARATION

1. Enzymes Powder Mask: Prepare according to instructions on the Pevonia How To Treatment Standards document.
2. Prepare Soothing Ampoule by twisting off cap and emptying contents into a cup and set aside.
3. Take 1 sheet of Oxy-Vital Mask, remove triangle cut out at the base of the mask and set aside for application on the nose.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Exfoliate	Apply the Enzyme Powder Mask accordingly.
4. Remove Enzymes	Apply Cleanser and thoroughly remove Enzymes.
5. Apply Ampoule	Apply $\frac{3}{4}$ of Soothing Ampoule all over face and neck. Use light movements to prevent stimulating excessive circulation. Massage until completely absorbed. Keep remaining product for end of the treatment.
6. Apply/Remove Mask	a. Face Mask — Apply and hold sheet mask over face and neck. Then, take a sponge or 4x4 with cool water and press it against the mask, until it is completely moist and adhered to the skin. Shape the mask in place, put on the nose-piece and Leave on for 15 minutes. b. Arm and hand massage, perform during masking using Micro-Emulsion Massage Cream. c. Roll mask down to remove, do not wipe the skin. d. Apply a small amount of Eye product of choice around the eyes, $\frac{1}{4}$ inch from the lashes, and massage gently until absorbed.
7. Moisturize/Protect	a. Ampoule: Apply remainder of ampoule over face and neck and massage gently until absorbed. b. Moisturizer – Apply Reactive Skin Care Cream. c. Apply Lumafirm® Repair Cream Lift & Glow to neck and décolleté. d. Apply YouthRenew™ Tinted Cream.
8. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

TREATMENT PRESENTATION

- 4056-33 Escutox® Freeze-Dried box with 10 treatments

MAIN USE/PURPOSE

To soften and reduce the dynamic imprint of facial lines and wrinkles on mature skin.

IDEAL/RECOMMENDED FOR

All mature skin types concerned with persistent lines and wrinkles.

MAIN INGREDIENTS

- Hibiscus Esculentus Extract
- Algae Oligosaccharides
- Squalane

SCIENCE BEHIND THE TREATMENT

- Hibiscus Esculentus Extract – Neuropeptide that inhibits neuromuscular contractions to smooth and relax wrinkles.

- Squalane – A human-identical lipid from Spanish Green Olives rich in Vitamins A & E that increases moisture content and softens the skin.
- Algae Oligosaccharides – Sugar molecules from Algae that bind moisture to the skin. Also serves as a freeze-dried base for the Hibiscus Esculentus Extract.

TREATMENT BENEFITS

- Relaxes and smooths dynamic lines and wrinkles
- Revitalizes and repairs
- Moisturizes deeply

ESCUTOX® ANTI-WRINKLE TREATMENT — Products Needed

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Power Repair® Hydrating Cleanser
- Power Repair® Hydrating Toner
- Choice of Enzyme: Enzyme Powder Mask or Enzymo-Sphérides® Peeling Cream or Foam-A-Zym™
- Phyto-Gel Cleanser or CleanRefresh™ Foaming Cleanser
- Micro-Emulsion Massage Cream
- Freeze-Dried Escutox® Anti-Wrinkle Treatment
- Choice of 'C' Evolutive Eye Gel, Evolutive Eye Cream, LumaFirm® Eye Contour
- Myoxy-Caviar® Mask (Cream)
- Timeless Repair Cream
- LumaFirm® Repair Cream Lift & Glow
- YouthRenew™ Tinted Cream
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™
- Rapid-Restore Lip Balm

TREATMENT CONTRAINDICATIONS

Pregnancy – Hypersensitive Skin – Sunburn

PREPARATION

1. Choice of Enzyme: Prepare according to instructions on the Pevonia How To Treatment Standards document.
2. Escutox® Freeze-Dried: Take one piece and cut into quarters, place in cup and add 1 tsp of water, mix until a smooth gel texture is obtained. Set aside.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Exfoliate	Foam-A-Zym™ is recommended for deeper penetration of Escutox, however; other choices of enzymes are applicable.
4. Remove Enzymes	Follow procedure to remove enzymes as stated on Pevonia How To Treatment Standards document.
5. Apply Freeze-Dried	Escutox® Freeze-Dried Treatment – Mix prepared Escutox® thoroughly and apply over face and neck. Proceed with wrinkle smoothing specific target massage. Keep Escutox® moist to facilitate massage for desired length of time (8-10 mins).
6. Apply/Remove Mask	a. Eye Mask: Apply eye mask following Pevonia Standards. b. Face Mask: Apply a small amount of Myoxy-Caviar® Mask (Cream) all over face and neck. Leave on for 15 minutes. c. Arm and hand massage, perform during masking using Micro-Emulsion Massage Cream. d. Remove face mask. Follow with Power Repair® Hydrating Toner.
7. Moisturize/Protect	a. Moisturizer – Apply Timeless Repair Cream. b. Apply Rapid Restore Lip Balm and Eye Product – Customize according to concerns. c. Apply Lumafirm® Repair Cream Lift & Glow to neck and décolleté. d. Apply YouthRenew™ Tinted Cream.
8. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

HOW TO SELL

MENTION THE COST PER TREATMENT (SEE COST ANALYSIS) AND THE RECOMMENDED PRODUCTS FOR HOME USE

- Power Repair® Hydrating Cleanser

TREATMENT PRESENTATION

5068-33 Collagen Cryo (Collagen Cryo Ampoules) – 10 treatments

MAIN USE/PURPOSE

For immediate eye contour plumping and smoothing of lines and wrinkles.

IDEAL/RECOMMENDED FOR

Those concerned with eye contour lines and wrinkles, as well as dry and dehydrated skin.

MAIN INGREDIENTS

Marine Collagen Powder

SCIENCE BEHIND THE TREATMENT

- Marine Collagen Powder Ampoule – When an appropriate amount of water is added to this Collagen powder, it reconstitutes itself to a macro-molecule that plumps up lines and wrinkles by binding moisture to the skin.

TREATMENT BENEFITS

- Moisturizes and plumps
- Smooths lines and wrinkles

DE-STRESS EYE TREATMENT – EYE WRINKLES – PRODUCTS NEEDED

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Power Repair® Hydrating Cleanser
- Power Repair® Hydrating Toner
- Collagen Cryo (1 Treatment)
- Choice Of 'C' Evolutive Eye Gel, Evolutive Eye Cream, Lumafirm® Eye Contour
- Lumafirm® Repair Cream Lift & Glow
- Pevonia Moisturizer according to skin type
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™
- Micro-Emulsion Massage Cream
- Rapid-Restore Lip Balm

TREATMENT CONTRAINDICATIONS

Hypersensitive Eye Contour – Irritation

PREPARATION

1. Prepare the Collagen Cryo Ampoule by removing the cap and emptying powder into a cup while tapping the ampoule to make sure that all the powder has emptied out. Add ½ teaspoon of cool water. Mix thoroughly until a thick, homogenous gel is obtained. Set aside.
2. Prepare Eye Pads. Cut two oversize eye pads, soak in cold water and set aside.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Apply Ampoule	Apply the prepared Collagen Cryo Gel around the eyes using an eye mask brush. Cover entire eye contour including “crow’s feet,” ¼ of an inch away from lashes.
4. Apply/Remove Eye Pads	a. Cover Collagen Cryo with the prepared eye pads moistened with cool water. Pads should be applied at once over Collagen Cryo and should adhere completely to the eye area. Keep Collagen Cryo moist. Leave on for 15 minutes. b. Arm and hand massage, perform during masking using Micro-Emulsion Massage Cream. c. When time is up, remove Eye Pads.
5. Moisturize/Protect	a. Apply a small amount of Eye product of choice, massage gently until absorbed. b. Moisturizer – Apply any Pevonia moisturizer all over face and neck. Massage gently until absorbed. c. Apply Rapid-Restore Lip Balm d. Apply YouthRenew® Tinted Cream. e. Apply Lumafirm® Repair Cream Lift & Glow to neck and décolleté.
8. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

pevonia®

LUMINOUS SKIN & SMOOTHED WRINKLES TREATMENT

TREATMENT PRESENTATION

5100-33 Intensifier - Collagen & Myoxy-Caviar® Ampoules — 5ml / 0.17 fl oz (5 count)

2034-22 Myoxy-Caviar® Mask (Cream) – Professional Tube — 100 g

MAIN USE/PURPOSE

To help in preventing, smoothing, and repairing fine lines.

IDEAL/RECOMMENDED FOR

Skin types concerned with aging signs.

MAIN INGREDIENTS

Marine Collagen

Caviar

Hibiscus Esculentus Extract

SCIENCE BEHIND THE TREATMENT

- Marine Collagen Polypeptides – Collagen amino acids that plump and smooth lines and wrinkles.

- Caviar – Intracellular extract from Caviar Roe made up of proteins, lipids, vitamins, and minerals that rebuilds the skin, moisturizes, and smooths texture.
- Hibiscus Esculentus Extract – Neuropeptides that reduce neuromuscular contractions to smooth and relax wrinkles.

TREATMENT BENEFITS

- Smooths lines and wrinkles while leaving the skin luminous
- Revitalizes and repairs
- Moisturizes deeply

LUMINOUS SKIN & SMOOTHED WRINKLES TREATMENT -PRODUCTS NEEDED:

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover

LUMINOUS & OXYGENATED SKIN TREATMENT

TREATMENT PRESENTATION

5103-33 “C” Complexe with Oxyzomes Ampoules - 5 ml / 0.17 fl oz (5 count)

2062-22 Lumaform® Repair Mask – Lift & Glow – professional tube - 100 g

MAIN USE/PURPOSE

To revitalize, smooth, tone, rejuvenate, and illuminate mature and dull skin.

IDEAL/RECOMMENDED FOR

All mature skin, sun damaged skin, smokers, discolored skin.

MAIN INGREDIENTS

“C” Complexe with Oxyzomes

Diacetyl Boldine

Kombucha

- Diacetyl Boldine – Extract from the Chilean Boldo Tree Bark that inhibits Tyrosinase and combats free radicals.
- Kombucha – From fermented Black Tea, improves circulation and oxygen uptake by skin cells to improve performance while also helping retain adipocytes' triglycerides for tissue volume.

TREATMENT BENEFITS

- Instant glow, radiance and brilliance
- Firmer-looking and more toned appearance
- Boosted cellular performance

SCIENCE BEHIND THE TREATMENT

- Ampoule - “C” Complexe with Oxyzomes – Time release liposomic structure made up of Lecithin, containing Vitamin C (Magnesium Ascorbyl Phosphate) and Vitamin E, to stimulate collagen synthesis, combat free radicals, and even the skin tone.

LUMINOUS & OXYGENATED SKIN TREATMENT -PRODUCTS NEEDED:

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Facial Cleanser
- Facial Lotion
- Evolutive Eye Mask
- Choice of Enzyme: Enzyme Powder Mask or Enzymo-Sphérides® Peeling Cream or Foam-A-Zym™
- Micro-Emulsion Massage Cream
- “C” Complexe with Oxyzomes Ampoule
- Lumaform® Repair Mask
- Lumaform® Repair Cream Lift & Glow
- YouthRenew™ Tinted Cream
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™
- Rapid-Restore Lip Balm
- Eye Product according to concerns

TREATMENT CONTRAINDICATIONS

Hypersensitive Skin – Sunburn – Recent Use of Exfoliants

PREPARATION

1. Choice of Enzyme: Prepare according to instructions on the Pevonia How To Treatment Standards document.
2. Prepare “C” Complexe with Oxyzomes Concentrate Ampoule: Empty in cup and set aside.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Exfoliate	Apply the Choice of Enzymes accordingly.
4. Remove Enzymes	Apply Cleanser and thoroughly remove Enzymes.
5. Apply Ampoule	a. Professional ampoule – “C” Complexe with Oxyzomes – Apply on areas of concern (lines and wrinkles, hyperpigmentation). Massage all over until completely absorbed, or if a dedicated, targeted massage is desired, proceed at this point. Leave a small amount for the end of the treatment. b. Apply Micro-Emulsion Massage Cream and proceed with massage. Blot off any excess.
6. Apply/Remove Mask	a. Eye Mask – Apply Evolutive Eye Mask around eyes and cover eyes with eye pads moistened with Anti-Stress Eye Lotion. b. Face Mask – Apply small amount of Lumafirm® Repair Mask – Lift & Glow over face and neck. Leave on for 15 minutes. c. Arm and hand massage, perform during masking using Micro-Emulsion Massage Cream. d. Remove Face Mask: Loosen perimeter with fingers, then lift off. Remove any residue with cool 4x4s, remove eye mask with eye pads. e. Follow with Facial Lotion.
7. Moisturize/Protect	a. “C” Complexe with Oxyzomes – Apply remainder on face and neck. b. Moisturizer – Apply Lumafirm® Repair Cream – Lift & Glow. c. Apply Rapid Restore Lip Balm and Eye Product – Customize according to concerns. d. Apply Lumafirm® Repair Cream Lift & Glow to neck and décolleté. e. Apply YouthRenew™ Tinted Cream.
8. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

TREATMENT CONTRAINDICATIONS

Sunburn — Pregnancy

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing .
3. Exfoliate	Apply the choice of Enzymes accordingly.
4. Remove Enzymes	Apply Cleanser and thoroughly remove Enzymes. Follow with Facial Lotion .
5. Steam Face	a. Cover eyes with eye pads moist with Anti-Stress Eye Lotion. Apply the steamer for 5 to 8 minutes according to skin type. Note: You can easily transform your steamer from a regular steamer to an aroma-steamer. Moisten the sponge wick with an essential oil and place it in the nozzle of the steamer. Choose any Pevonia Aromatherapy Face Oil for this procedure.
6. Face Massage	a. Put 5-8 drops of the Aromatherapy Face Oil of your choice on the palm of your hand. b. Apply Aromatherapy Face Oil over face, neck, and décolleté. c. Proceed with massage. Any massage method can be performed.
7. Apply Remove/Mask	a. Eye Mask – Apply "C" Evolutive Eye Gel around eyes and cover eyes and eyebrows with eye pads moistened with Anti-Stress Eye Lotion. b. Face Mask – Apply any Pevonia Mask according to skin type or condition. Leave on for 15 minutes. c. Arm and hand massage, perform during masking using aromatherapy oil of choice. d. Remove Face Mask: Remove with cool Facial Pads (4x4's) and remove eye mask with eye pads. e. Follow with Facial Lotion .
8. Moisturize/Protect	a. Moisturizer – Apply any Pevonia Moisturizer according to skin type or condition. b. Apply Lumafirm® Repair Cream Lift & Glow to neck and décolleté.
9. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

HOW TO SELL

MENTION THE COST PER TREATMENT (SEE COST ANALYSIS) AND THE RECOMMENDED PRODUCTS FOR HOME USE

- Cleanser and Toner according to skin type or condition
- Eye Product according to skin concerns
- Moisturizer according to skin type or concerns
- De-Stress Escape Aromatic Oil

SAMPLES: DISCUSS FEATURES VS. BENEFITS

Eye Product according to concern

Features:

Depending on product and skin concerns:

- High-performing eye contour, gentle and effective formulations deliver moisture, correction, and protection
- Safe for eyelash extensions and contact lenses

Benefits:

Depending on product and skin concern:

- Smoothing of lines and wrinkles
- Radiant skin, concealing effect
- Firmer-looking appearance, less sagging (eye bags)
- Infusion of deep moisture

Moisturizer according to skin type or concern

Features:

Depending on product and skin concern:

- Result-driven high-performing triphase, microemulsified moisturizing formulations deliver specialized benefits (repairing, soothing, renewing, enlivening, corrective, and protective)
- All Pevonia moisturizers reduce TEWL (Transepidermal water loss) and increase NMF (Natural Moisturizing Factor)
- Contain a selection of high-quality ingredients and breakthrough green (natural) technologies, encapsulation, and delivery systems

Benefits:

Depending on product and skin concern:

- Rejuvenating and normalizing cell functions
- Smoothing of lines, wrinkles, and overall skin texture
- Toning and diminishing sagging appearance
- Gleaming skin, concealing effect, repairing, and corrective results
- Deeply moisturizing and revitalizing benefits

DE-STRESS EYE TREATMENT – EYE PUFFINESS (GINKGO BILOBA - SHEET MASKS)

TREATMENT PRESENTATION

5067-33 De-Stress Eye Treatment – Eye Puffiness (Ginkgo Biloba - Sheet Masks)

MAIN USE PURPOSE

For immediate relief of eye contour puffiness, and minimizing the appearance of dark circles.

IDEAL/RECOMMENDED FOR

All skin types with eye contour concerns.

MAIN INGREDIENTS

Ginkgo Biloba Leaf Extract

Collagen Sheet

SCIENCE BEHIND THE TREATMENT

- Ginkgo Biloba Leaf Extract – Improves circulation to assist in decongesting the under-eye area; soothes, and neutralizes free radicals.
- Collagen Sheet – Binds moisture to the skin and plumps skin texture.

TREATMENT BENEFITS

- Reduces under-eye swelling
- Improves eye contour microcirculation
- Smooths eye contour lines and wrinkles
- Reduces the appearance of dark circles
- Moisturizes

DE-STRESS EYE TREATMENT — PRODUCTS NEEDED

- Choice of Pevonia Aromatherapy Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Power Repair® Hydrating Cleanser
- Power Repair® Hydrating Toner
- De-Stress Eye Treatment – Eye Puffiness (Ginkgo Biloba - Sheet Masks) 1 Treatment
- “C” Evolutive Eye Gel
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

TREATMENT CONTRAINDICATIONS

Hypersensitive Eye Contour — Irritation

PREPARATION

1. Take one Eye Mask from the box and set aside.
2. Prepare Moistening Solution: Place three tablespoons of Anti-Stress Eye Lotion in a cup and add one ice cube. Set aside.
3. Prepare Eye Pad: Prepare one piece of eye pad with the same length as the eye mask. Fold in two for easy measurement. Soak in ice-cold water.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.**
3. Apply/Remove Mask	a. Moisten the eyelids with a cotton pad moist with the prepared solution. b. Apply the mask sheet on the eyes. c. Using the same moist cotton pad and solution, press gently against the mask to moisten completely so it adheres to the skin. d. Apply eye pads wet with ice-cold water over the sheet eye mask. Press to ensure eye pads adhere to sheet eye mask. Leave on 15 min. e. Remove eye pads and sheet eye mask simultaneously.
4. Moisturize/Protect	Apply a small amount of “C” Evolutive Eye Gel and massage gently until absorbed.
5. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

****NOTE:** If you are performing this eye treatment in conjunction with a face treatment: Cleanse the face, peel, steam, extract, aseptisize, and massage. Then proceed with the De-Stress Eye Treatment - Eye Puffiness (Ginkgo). At the end, apply face mask while the eye sheet mask is on.

For outstanding results, it is recommended to perform the Collgen Cryo - Eye Wrinkles (Collagen) first, then follow with the De-Stress Eye Treatment - Puffiness (Ginkgo).

TREATMENT PRESENTATION

5107-33 Soothing Formula Ampoule - 5ml / 0.17 fl oz (5 count)

MAIN USE/PURPOSE

To calm, soothe, and diffuse redness of irritated/sensitized skin.

IDEAL/RECOMMENDED FOR

All skin types, especially sensitive, reactive, and hypersensitive.

MAIN INGREDIENTS

Calendula

Horse Chestnut

Water Lily Flower

Chamomile

SCIENCE BEHIND THE TREATMENT

- Water Lily Flower – Extract that reduces the effect of prostaglandins involved in inflammation and pain discomfort, while cooling, repairing, moisturizing, and calming irritated skin.
- Calendula – Soothing, calming, and repairing extract that lessens irritation and discomfort.
- Horse Chestnut – Natural vasoconstricting extract that diffuses redness and couperose skin, improves micro-circulation.
- Chamomile – Soothing and calming ingredient.

TREATMENT BENEFITS

- Quick relief of redness and irritation
- Deeply Moisturizing
- Cooling effect

SOOTHING FORMULA AMPOULE TREATMENT – PRODUCTS NEEDED

- Choice of Pevonia Aromatherapy Oil
- Eye Make-up Remover
- Anti-Stress Eye Lotion
- Facial Cleanser

Phyto-Gel Cleanser

Gentle Exfoliating Cleanser or Enzymo-Sphérides
Peeling Cream

Pure Skin Charcoal Mask

Eye Product according to concerns

Procorrective® Clear-Control Moisturizer

SAMPLES: DISCUSS FEATURES VS. BENEFITS

Phyto-Gel Cleanser

Features:

- Family-friendly foaming gel that cleanses thoroughly without drying
- Alcohol-free
- Non-alkaline formula

Benefits:

- Cleanses deeply
- Leaves the skin fresh and purified
- Ideal for enzyme removal

Gentle Exfoliating Cleanser

Features:

- Creamy and granular texture
- Natural safe exfoliants: Jojoba Beads
- Can be used daily or as needed

Benefits:

- Helps prevent pore-clogging
- Gentle and soothing exfoliation
- Smooths texture

Enzymo-Sphérides Peeling Cream

Features:

- High-tech sphérulites enzymatic entrapment that keeps papaya and pineapple enzymes isolated and inert until the sphérulites break down and deliver the enzymes after application on the skin
- Water will activate the enzymes for full performance

Benefits:

- Softens, facilitates the removal of dead cells, and helps with pore de-clogging
- Exfoliates and illuminates complexion
- Enhances absorbency of actives

Clear-Control Moisturizer

Features:

- Triphase, lightweight formula ensures deep delivery of moisture and active ingredients
- Non-greasy, mattifying effect
- Contains gentle moisturizing, antiseptic, and keratolytic ingredients (microcitrus australasica, super clearing zinc chloride complex, tea tree, hyaluronic acid, etc.) suitable for problem skin daily use

Benefits:

- Controls acne lesions, reduces excess oiliness
- Diminishes excess bacteria
- Decreases irritation and discomfort
- Promotes skin repair and prevents sequelae (hyperpigmentation/scarring)
- Moisturizes and protects

Pure Skin Charcoal Mask

Features:

- Microemulsified activated vegetal charcoal is of the highest available quality
- High-performing, smooth, and refined-texture mask smooth and refined texture mask applies easily and removes with no residue or skin discoloration
- Also contains kaolin, bentonite, and grapefruit oil for aromatherapy benefits

Benefits:

- Detoxifies, clarifies, and smooths skin
- Supports the reduction of bacteria and breakouts
- Cleanses deeply

Eye Product according to concerns

Features:

Depending on product and skin concerns:

- High-performing eye contour, gentle and effective formulations deliver moisture, correction, and protection
- Safe for contact lens wearers

Benefits:

pevonia®

HYDRA-CLOUD™ MASK TREATMENT

TREATMENT PRESENTATION

5208-33 Hydra-Cloud™ Mask Treatment box containing:

- Cotton Powder Pouches (5 count)
- Hyaluronic Acid Hydra-Serum Ampoules (5 count)

MAIN USE/PURPOSE

For skin types needing deep moisture, wrinkle smoothing, soothing, cooling, and toning.

Great for mature, sensitive, peri-menopausal, menopausal, dry/dehydrated, and rosacea-prone skin.

MAIN INGREDIENTS

Powder Pouch: Micronized Cotton extract (50%), Aloe, Titanium Dioxide, Sea Salt

Ampoule: Micro-fragmented Hyaluronic Acid (12%), Marine Collagen, Hibiscus Esculentus

SCIENCE BEHIND THE TREATMENT

- Micronized Cotton Powder Mask - Promotes repairing, moisturizing, toning, soothing, and cooling benefits by releasing active ingredients into the skin favored by ionic transportation. The mix of water and sea salt in the powder creates an enriched medium laden with negative ions and as this occurs, the beneficial ingredients in the Hydra-Cloud™ Mask Treatment and the Hyaluronic Acid Hydra-Serum (applied under the mask) will have a facilitated passage into the deeper layers of the skin while ingredient penetrability and efficacy process continues during the treatment and beyond.

As a result, the skin is supercharged with negative ions plus all the highly efficacious ingredients so aging signs will be less visible, and lines and wrinkles are permeated with moisture for a visibly smoother, radiant, taut, cool, and refreshed complexion.

- Hyaluronic Acid Hydra-Serum – A unique blend in a formulation containing fragmented micro-particles of botanical Hyaluronic Acid from Sugar Beets guaranteed for absorption and combined with the powerful duo of Marine Collagen and Hibiscus Esculentus extracts for optimal moisturizing and skin smoothing results. Skin texture is rendered softer, plumper, and tauter, while looking healthier, resilient, luminous, and supple.

TREATMENT BENEFITS

- Naturally soft and cool
- Calms naturally
- Skin appears tauter
- Moisturizes deeply
- Helps minimize fine lines and wrinkles
- Fights free radicals
- Soothes the skin
- Hypoallergenic

HYDRA-CLOUD™ MASK TREATMENT — PRODUCTS NEEDED

- Choice of Pevonia Aromatherapy Oil
- Eye Make-up Remover
- Anti-Stress Eye Lotion
- Power Repair® Hydrating Cleanser
- Power Repair® Hydrating Toner
- Choice of Enzyme: Enzyme Powder Mask or Enzymo-Sphérides® Peeling Cream or Foam-A-Zym™
- Phyto-Gel Cleanser or CleanRefresh™ Foaming Oil Cleanser
- Hydra-Cloud™ Mask Treatment (1 powder pouch & 1 serum ampoule)
- Evolutive Eye Mask
- Power Repair® Line Cream/ Moisturizer of Choice
- Micro-Emulsion Massage Cream
- YouthRenew™ Tinted Cream
- Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

PREPARATION

Choice of Enzyme: Prepare according to instructions on the Pevonia How To Treatment Standards document.

APPLICATION STEPS

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Exfoliate	Apply the choice of Enzymes accordingly.
4. Remove Enzymes	Apply Cleanser and thoroughly remove Enzymes.
5. Apply Ampoule	a. Apply $\frac{3}{4}$ of the Hyaluronic Acid Hydra-Serum ampoule on areas of concern and perform targeted massage until the product is completely absorbed. Proceed to the different facial areas and repeat the same procedure. Then massage the Hyaluronic Acid Hydra-Serum one more time all over face and neck, leaving a small quantity to apply at the end of the Hydra-Cloud™ Mask Treatment. NOTE: For best results, perform the Pevonia Pevolift Massage before applying the Hyaluronic Acid Hydra-Serum. b. Apply choice of eye product around eyes. Cover eyes and eyebrows with pads moist with Anti-Stress Eye Lotion.
6. Apply/Remove Mask	a. Face Mask - Empty 1 Hydra-Cloud™ powder pouch into plastic bowl and mix with 4 oz of cold water. Add water while mixing with a spatula until a smooth consistency is obtained. Then using the spatula, apply immediately all over face and neck with long strokes in an even, medium-thick layer, covering the skin well. b. Leave mask on for 15 minutes. Perform arm and hand massage, if desired, during masking using Micro-Emulsion Massage Cream. Remove excess mask with spatula, then wipe skin with cool water. c. Wipe the skin with pads moistened with Power Repair® Toner and blot dry.
7. Moisturize/Protect	a. Ampoule - Apply remainder of ampoule over face and neck and massage gently until absorbed. b. Moisturizer – Apply Power Repair® Line Cream/Moisturizer of choice over face, neck, and décolleté. c. Apply YouthRenew™ Tinted Cream.
8. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

TREATMENT CONTRAINDICATIONS

None Specific. (Do not use enzyme step on hypersensitive skin).
Do consult/follow the contraindications and suitable treatments guidelines.

PEVONIA COLLAGEN INFUSION TREATMENT

(Face Treatment with Collagen Cryo)

TREATMENT PRESENTATION

5068-33 Collagen-Cryo box containing: Collagen-Cryo Ampoules (10 count)

1612-22 Hyaluronic Acid HydraMist™ • 1521-22 Radiance Pure Skin Charcoal Mask

MAIN USE/PURPOSE

For plumping and smoothing of lines and wrinkles.

IDEAL/RECOMMENDED FOR

Instant moisture filler treatment. For all skin needing deep moisture, wrinkle smoothing, plumping, detox, and soothing. Great for mature, dry/dehydrated, sun damaged, smokers' skin.

MAIN INGREDIENTS

Collagen-Cryo Ampoule: 100% pure, unadulterated marine collagen fiber powder in freeze-dried form

Other ingredients based on treatment: hyaluronic acid, micronized charcoal, natural plant oils, including lavender

SCIENCE BEHIND THE TREATMENT

- Marine Collagen Freeze-dried Powder Ampoule - When the appropriate amount of water is added to this 100% pure, unadulterated marine collagen fiber it gets immediately reconstituted to a macro-molecule with a filmogenic effect that plumps up lines and wrinkles by binding moisture to the skin
- Hyaluronic Acid- A unique formulation containing fragmented micro-particles of botanical Hyaluronic

Acid from Sugar Beets, guaranteed for absorption for optimum deep moisturizing and skin smoothing results. Skin texture is rendered softer, plumper, and tauter, while looking healthier, resilient, luminous, and supple.

- Micronized Charcoal: Small particle size guarantees better effects on the skin by uniformly neutralizing toxins, removing skin impurities, creating radiance and glow, smoothing the texture, and being gentle on the skin. It also has the advantage of eliminating the side effect of grey hue pigmentation left on the skin by standard forms of charcoal.

TREATMENT BENEFITS

- Enriches the skin with deep moisture
- Detoxifies and invigorates
- Immediate wrinkle smoothing results
- Long lasting moisture bonding
- Relaxing aromatic sensory experience
- Synergistic and amplified results vs. application of separate components
- Leaves the skin glowing, youthful looking and protected

COLLAGEN INFUSION TREATMENT – PRODUCTS NEEDED

- De-Stress Escape Aromatic Oil
- Eye Make-up Remover
- Anti-Stress Eye Lotion
- Facial Cleanser
- Facial Lotion
- Choice of Enzyme: Enzyme Powder Mask or Enzymo-Sphérides® Peeling Cream or Foam-A-Zym™
- Phyto-Gel Cleanser or CleanRefresh™ Foaming Oil Cleanser
- Hyaluronic Acid HydraMist™
- Collagen-Cryo Ampoule
- Pure Skin Charcoal Mask
- Age-Defying Marine Collagen Cream
- YouthRenew® Tinted Cream
- Rapid-Restore Lip Balm
- Phyto-Aromatic Mist

PREPARATION

1. Collagen Cryo Ampoule: Remove the rubber cap and empty the powder in a cup, tapping the ampoule to make sure that all of the powder has emptied out. Add 1 teaspoon of hot water. Mix thoroughly until a thick homogeneous gel is obtained. Set aside or rest for at least 2 minutes.
2. Choice of Enzyme: Prepare according to instructions on the Pevonia How To Treatment Standards document.
3. Pure Skin Charcoal Mask and De-Stress Escape Aromatic Oil mix: Pour Pure Skin Charcoal Mask into a product cup and add 3 drops of De-Stress Escape Aromatic Oil. Mix well until a homogeneous consistency is obtained. Set aside.

APPLICATION STEPS: (for additional details, refer to Pevonia “How to/Standards” document)

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute. (with De-Stress Escape Aromatic Oil)
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Exfoliate	a. Apply the choice of Enzymes accordingly. b. Remove the enzyme peeling mixture well with pads wet with warm water.
4. Remove Enzymes	Apply Cleanser and thoroughly remove enzymes as indicated in the “How to” Standards Guide
5. Apply Ampoule	a. Apply the prepared Collagen-Cryo gel all over face, eye contour, neck, and décolleté using the eye mask brush. When applying around the eye contour, keep 1/4 of an inch away from lashes. b. Massage the applied Collagen-Cryo gel well, emphasizing on all areas of concern, including the eye contour
6. Apply Remove/Mask	a. Apply the prepared mix of Pure Skin Charcoal Mask and De-Stress Escape Aromatic Oil in a thin layer over the areas treated with the Collagen-Cryo Gel. b. Cover eyes and eyebrows with eye pads moist with Anti-Stress Eye Lotion. Leave mask on for 15 minutes. c. Rinse mask with pads wet with cool water. Follow with Hyaluronic Acid HydraMist™.
7. Moisturize/Protect	a. Moisturizer – Apply Power Repair® Line Marine Collagen Cream or moisturizer of choice over face, neck, and décolleté. Massage until absorbed. b. Apply Rapid-Resore Lip Balm c. Apply YouthRenew® Tinted Cream
8. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist.

TREATMENT CONTRAINDICATIONS

Skin irritation. (Skip enzyme step on reactive/hypersensitive skin). Do consult the pevonia general recommendations and contraindications guidelines before performing this treatment

HOW TO SELL

MENTION THE COST PER TREATMENT (SEE COST ANALYSIS) AND THE RECOMMENDED PRODUCTS FOR HOME USE

- Power Repair® Hydrating Cleanser and Lotion/Toner, or according to skin type
- Marine Collagen Cream or any Pevonia Cream/Moisturizer according to skin type
- Gentle Exfoliating Cleanser
- Hyaluronic Acid HydraMist™
- Pure Skin Charcoal Mask
- De-Stress Escape Aromatic Oil
- Eye/Lip product according to concern

SAMPLES: OFFER SAMPLES (IF AVAILABLE) AND DISCUSS FEATURES VS. BENEFITS

Power Repair® Hydrating Cleanser

Features:

- Creamy Cleanser
- Contains Sodium Lauroyl Oat Amino Acids, Marine Collagen and Elastin
- Hydrosoluble

Benefits:

- Cleanses thoroughly
- Moisturizes
- Preserves the hydrolipidic mantle
- Deeply moisturizing

Eye Product according to concern

Features:

- Depending on product and skin concern, high performing eye contour gentle and effective formulations that deliver hydration, correction, and protection
- Safe for contact lens wearers

Benefits:

- Depending on product and skin concern:
- Smoothing of lines and wrinkles
- Lightening, brightening, concealing
- Firming and sagging prevention (eye bags)
- Deeply hydrating for eye contour

Power Repair® Age-Defying Marine Collagen Cream

Features:

- Triphase homogenized cream
- Deeply moisturizing with silky texture
- Filmogenic effect that plumps and smooths wrinkles
- Contains Marine Collagen and Hyaluronic Acid

Benefits:

- Softens fine lines and wrinkles
- Creates a strong moisture bond
- Delivers a youthful appearance
- Protects

Gentle Exfoliating Cleanser

Features:

- Creamy and granular texture
- Natural safe exfoliants: jojoba beads
- Can be used daily or as needed

Benefits:

- Prevents clogging
- Gentle and soothing exfoliation
- Smooths texture

Pure Skin Charcoal Mask

Features:

- Microemulsified activated vegetal charcoal is of the highest quality available
- High performing smooth and refined texture mask applies easily, and removes with no residue or skin discoloration
- Also contains kaolin, bentonite, and grapefruit oil for aromatherapy benefits

Benefits:

- Detoxifies, clarifies, and smooths skin
- Supports the reduction of bacteria and breakouts
- Cleanses deeply

pevonia®

PROCORRECTIVE® CLEAR-CONTROL ACNE TREATMENT

(Face Treatment for Acneic/Problem Skin)

TREATMENT PRESENTATION

1916-22 Clear-Control Exfoliator - Bottle 500g net wt. 17 oz.

1917-22 Clear-Control Moisturizer – Tube 50g net wt. 1.7 oz.

1918-22 Clear-Control Mask – Tube 100g net wt. 3.4 oz.

1919-22 Clear-Control Blemish Treatment - Tube 15 ml 0.5 fl. oz.

MAIN USE/PURPOSE

To control and improve blemishes and symptoms of acne.

IDEAL/RECOMMENDED FOR

Problematic and acneic skin types

MAIN INGREDIENTS

Microcitrus Australasica

Extracts Complex of Zinc Chloride/Hydrolyzed Wheat Protein/Cinnamon/Thyme/Mallow/ Witch Hazel

Salicylic, Glycolic, and Lactic Acids

Tea Tree and Niacinamide

SCIENCE BEHIND THE TREATMENT

- Microcitrus Australasica – Also known as Caviar Lime, is rich in alpha-hydroxy acids (AHAs) that activate the TRPV3 (Transient Receptor Potential Vanilloid-3) channels promoting intracellular acidification in keratinocytes, thus stimulating a gentle exfoliation process without stripping the skin of its natural moisture. It also delivers up to three times the number of beneficial protecting and repairing antioxidants into the skin compared to other fruits.
- Extracts Complex of Zinc Chloride/Hydrolyzed Wheat Protein/Cinnamon/Thyme/Mallow/Witch Hazel - A multifunctional super clearing natural complex that delivers antiseptic, soothing, moisturizing, astringent, antioxidant, and repairing benefits to expeditiously improve skin health and aid in achieving a blemish-free complexion.

- Salicylic, Glycolic, and Lactic Acids– These natural BHA and AHA acids combine to deliver antiseptic and keratolytic action that reduces epidermal thickening, toxicity build-up, excess bacteria, and help control and reduce the risk of acne sequelae (hyperpigmentation/scarring).
- Tea Tree – Naturally combats excess bacterial growth due to its antiseptic properties, while reducing dryness, irritation, and discomfort. Also delivers anti-free radical benefits to support healthier skin.
- Niacinamide – Also known as Vitamin B3, supports improved circulation and cellular utilization of oxygen, while also helping reduce sebum production to control and improve the symptoms of acneic/problem skin.

TREATMENT BENEFITS

- Controls acne lesions (breakouts) and reduces excess oiliness and shine
- Soothes and calms irritation and discomfort
- Softens the skin surface and reduces epidermal thickening
- Diminishes excess bacteria, impurities, and pollutants
- Promotes healthier skin repair and a blemish-free complexion
- Helps reduce scarring and hyperpigmentation risk
- Moisturizes deeply, while protecting and leaving the skin luminous and clean

CLEAR-CONTROL ACNE TREATMENT -PRODUCTS NEEDED:

- | | | |
|------------------------------|-----------------------------------|-----------------------------|
| • Choice of Aromatherapy Oil | • Enzymes Powder Mask | • Clear-Control Moisturizer |
| • Eye Make-Up Remover | • Phyto-Gel Cleanser or | • Phyto-Aromatic Mist or |
| • Anti-Stress Eye Lotion | CleanRefresh™ Foaming Oil | Hyaluronic Acid HydraMist™ |
| • Facial Cleanser | Cleanser | • 2 Ice Massage Globes |
| • Facial Lotion | • Clear-Control Mask | • Gauze or 4x4 pads |
| • Clear-Control Exfoliator | • Clear-Control Blemish Treatment | |

PREPARATION

1. Enzymes Powder Mask: Mix 1/2 teaspoon of the Enzymes Powder Mask with a small quantity of warm water until a creamy mixture is obtained. Set aside.
2. Prepare the set of cold globes: Pour ice cubes in a bowl with cold water and partially submerge the massage globes. Make sure to keep the water level below the globe's stem seal. Set aside.

APPLICATION STEPS: (for additional details, refer to Pevonia "How to/Standards" document)

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute. (with De-Stress Escape Aromatic Oil)
2. Cleanse	a. Perform standard eye, face, and lip cleansing with Facial Cleanser and Lotion. Blot skin dry. b. Apply a small amount of Clear-Control Exfoliator over dry skin and use fingertips to work it all over for about 2 minutes. c. Then, wet fingertips with warm water and work the exfoliator one more time until a foamy consistency is obtained. d. Remove the exfoliator with dry pads first, then with wet pads until no residue is left on the skin. Blot skin dry.
3. Exfoliate	a. Cover eyes and eyebrows with eye pads moist with Anti-Stress Eye Lotion and apply the Enzymes Powder Mask mixture with a mask brush over face and neck, 1/2 inch away from eyes. b. Apply the steamer; leave on for 5-10 minutes, according to skin type. Remove Enzymes Powder Mask with pads moist with warm water. Proceed with gentle extractions if needed.
4. Remove Enzymes	a. Apply Cleanser and thoroughly remove enzymes as indicated in the "How to" Standards Guide. Apply Facial Lotion and blot dry. b. Apply High frequency to face and neck for 3 to 5 minutes if no contraindication exists.
5. Proceed with Massage/Mask Application & Removal	a. Cover the face with an ice cold gauze mask. b. Proceed with the Pevonia Proprietary Detox & Glow Facial Massage Technique. (See Step-by-Step instructions for the technique). Use Ice Globes. Remove gauze mask. c. With a face mask brush, apply the Clear-Control Mask to entire face and neck, 1/2 inch away from eyes. Cover eyes and eyebrows with cotton eye pads wet with Anti-Stress Eye Lotion. d. Leave mask on for an additional 15 minutes. Rinse mask with pads wet with cool water. e. Wipe the skin with Facial Lotion and blot dry.
6. Moisturize/Protect	a. Apply Clear-Control Blemish Treatment on affected areas. b. As a final step, apply Clear-Control Moisturizer all over the remaining areas of the face and neck.
7. Conclusion	Finishing Mist – Gently mist 2 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

TREATMENT CONTRAINDICATIONS

Grade 4 acne without medical supervision, hypersensitive skin, sunburn, pregnancy, use of retin a, differin, tazorac or other similar topical prescriptions within 48 hours. Ingestion of isotretinoin or other similar oral prescriptions within 6 months. Use of glycolic acids, salicylic acids, aha's or similar exfoliant methods within 48 hours. Please consult the Pevonia General Recommendations and Contraindications Guidelines before performing this treatment.

HOW TO SELL

MENTION THE COST PER TREATMENT (SEE COST ANALYSIS) AND THE RECOMMENDED PRODUCTS FOR HOME USE

- Clear-Control Exfoliator
- Clear-Control Blemish Treatment
- Clear-Control Moisturizer
- Clear-Control Mask

SAMPLES: OFFER SAMPLES (IF AVAILABLE) AND DISCUSS FEATURES VS. BENEFITS

Clear-Control Exfoliator

Features:

- Multifunctional, acid and mechanical based action gentle cleanser and exfoliant (aha/bha/jojoba beads)
- Two step gommage style and foaming effect for outstanding dead cell and impurities removal
- Gentle, non-irritating formula suitable for problem skin daily use

Benefits:

- Provides a thorough, deep cleansing and skin texture refinement
- Removes dead skin cells and impurities, reduces hyperkeratinization
- Leaves skin smooth, soft, and moisturized

Clear-Control Moisturizer

Features:

- Triphase, lightweight formula ensures deep delivery of moisture and active ingredients
- Non-greasy, mattifying effect
- Contains gentle moisturizing, antiseptic, and keratolytic ingredients (microcitrus australasica, super clearing zinc chloride complex, tea tree, hyaluronic acid, etc.) suitable for problem skin daily use

Benefits:

- Controls acne lesions, reduces excess oiliness
- Diminishes excess bacteria
- Decreases irritation and discomfort
- Promotes skin repair and prevents sequelae (hyperpigmentation/scarring)
- Moisturizes and protects

Clear-Control Mask

Features:

- Contains a blend of antiseptic, antioxidant, repairing, and moisturizing ingredients that are delivered in an absorbing and purifying base of Kaolin and Bentonite clays
- Absorbent formula detoxifies and removes excess oil, while delivering actives into skin
- Recommended for acneic and acne prone skin types, breakouts, blackheads

Benefits:

- Facilitates pore declogging to control acne lesions and promote clear looking skin
- Purifying and mattifying, reduces excess oiliness and balances complexion
- Removes dead cells and impurities leaving skin texture soothed, smooth, and soft
- Deeply and effortlessly moisturizing

TREATMENT PRESENTATION

5090-33 Foam-A-Zym™ Peel with Hyalosphere® and Retinol - Professional Tube – 100g e net wt. 3.4 oz

IDEAL/RECOMMENDED FOR

All skin types, including congested, oily, acneic, with dilated and obstructed pores, for difficult extractions, hyperpigmented, mature, lackluster, etc. Not for hypersensitive skin.

An instant results, advanced enzyme peeling treatment option to prepare the skin and enhance the outcome of various professional treatments. Improves ingredient absorption for increased luminosity and glow and a more youthful appearance.

Note: this treatment description is a set of partial steps that complement other Pevonia treatments.

MAIN INGREDIENTS

Papain, Bromelain, and Lipase Enzymes; Hyaluronic Acid in Hyalospheres®; Micro-Retinol®; Sodium Lauroyl Oat Amino Acids.

SCIENCE BEHIND THE TREATMENT

This high performing enzymatic formula stabilized with the natural amino acid arginine contains:

- Papain, Bromelain, and Lipase enzymes: Naturally derived blend of enzymes from Papaya, Pineapple, and Mushrooms. Highly active and proven to digest dead cells and impurities, while dissolving hardened sebum for the effective de-clogging of pores and facilitated extractions.
- Hyaluronic Acid in Hyalospheres® – Micron-size high-tech multi-lamellar structure (Sphérulite®) that acts as a protective encapsulation and delivery system, made of bilayers of botanical phospholipids. Each interlayer houses high molecular weight vegetal hyaluronic acid, which is easily released upon friction and skin warmth for targeted moisturizing and plumping action. Delivers superior skin smoothing and soothing benefits during the exfoliation process. This technology helps overcome possible side effects of exfoliation, such as dehydration and irritation.

- Micro-Retinol® – Pevonia-proprietary technology disperses a superbly refined emulsion of retinol micro-particles that are stabilized with vitamin C and E for superior and resilient performance. Serving as an expedited delivery system, Micro-Retinol® is immediately absorbed targeting the deeper epidermal layers and enhancing the skin's normal function. Outlasting the exfoliation process, Micro-Retinol® works to energize epidermal basal cells for a more youthful and radiant complexion.
- Sodium Lauroyl Oat Amino Acids – This natural surfactant made from oat amino acids provides gentle cleansing properties. When activated with water, the emulsification process begins with a very lightweight and delicate foam. The gentle foaming action serves as a vehicle to deliver the active ingredients in the formula, while simultaneously ridding the skin surface of impurities, environmental pollutants, and dead skin cells.

TREATMENT BENEFITS

- A standalone treatment or a pre-treatment to prepare the skin for extractions and high-performance therapies
- Deep cleansing of impurities from skin and pores
- Features an innovative trifecta process for outstanding results: gentle foaming cleansing + resurfacing + moisturizing
- Repairs and renews the skin; promotes visible skin luminosity and a healthier looking complexion
- Reduces the risk of potential dehydration and irritation from exfoliation
- Supports smoothing of the keratinized skin surface
- Ultimate enhancer for boosting ingredient absorbency and moisturization
- Facilitates extractions for gentler, expedited facials
- Skin is rendered radiant and healthier looking due to the action of the enzymes, the replenishment of moisture by the hyaluronic acid, and the resurfacing effect of Micro-Retinol®

FOAM-A-ZYM™ PEEL WITH HYALUSPHERE® AND RETINOL TREATMENT – PRODUCTS NEEDED

- Choice of Pevonia Aromatherapy Oil for inhalations
 - Eye Make-Up Remover
 - Anti-Stress Eye Lotion
 - Facial Cleanser (or ideal cleanser of choice)
 - Facial Lotion (or ideal lotion of choice)
 - Foam-A-Zym™ Peel with Hyalosphere® and Retinol
 - Choice of: Phyto-Gel Cleanser or CleanRefresh™ Foaming Oil Cleanser
 - 1 set of massage globes (hot)
 - Optional set of cold massage globes
 - Gauze or 4x4 pads
- (additional products needed will depend on main treatment chosen or skin condition, i.e. Hyaluronic Acid HydraMist™, Reactive Skin Care Cream, etc.)

PREPARATION

1. Foam-A-Zym™: Pour one teaspoon of Foam-A-Zym™ gel in a product cup and set aside.
2. Set of hot massage globes*: Boil water in a shallow teakettle or flat coffee pot and partially submerge the massage globes for 2 minutes. Make sure to keep water level below the stem seal (Alternatively, massage globes can be wrapped in a damp towel and placed in hot cabi). Set aside.

*This step can be optional if using steam. Please refer to Option 2 under the exfoliation steps below.

¹Optionally, a cold set of massage globes can be used for a soothing and calming effect if desired, after extractions are performed: Pour ice cubes in a bowl with cold water and partially submerge the massage globes. Make sure to keep the water level below the globes stem seals. Set aside.

APPLICATION STEPS: (You may also consult the corresponding professional step-by-step)

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	Perform standard eye, face, and lip cleansing.
3. Exfoliate	Option 1 – Using hot massage globes; no steam a. Cover eyes and eyebrows with eye pads moistened with Anti-Stress Eye Lotion. b. Using a facial mask brush, apply the Foam-A-Zym™ Peel with Hyalusphere® and Retinol gel in a thin layer all over the skin. Work it with fingertips until it completely adheres. *Due to this high performing product, a warm, tingling sensation and redness may be experienced but will subside. This temporary effect is due to the highly active formula. For the best experience and results, a detailed skin consultation and analysis should be conducted before proceeding. c. Dip fingertips in warm water and wet the gel while working it once again. Continue wetting fingertips and reworking as needed, until the Foam-A-Zym™ gel turns into a lightweight emulsion. d. Wet gauze sheets or unfolded 4x4 pads with warm/hot water and place over the face. e. Use the hot massage globes to roll gently all over the gauze or 4x4 pads. Follow the recommended Pevonia Fire & Ice - Detox & Glow Massage technique for 4 minutes* (Consult the “How To” Standards Guide for more information). f. Roll the gauze sheets or 4x4 pads down and use them to wipe the skin gently removing any of the Foam-A-Zym™ and dead cells while unclogging the skin. g. Proceed with extractions if needed. Option 2 – Using steam; no hot massage globes a. Perform steps 3a through 3c as described above. b. Apply steam up to 10 minutes or according to skin type. c. Work the Foam-A-Zym™ one more time under steam. d. Remove steam. Wipe the skin with wet 4x4 pads to remove the Foam-A-Zym™. e. Proceed with extractions, if needed. Option 3 – Using as exfoliant only; no steam and no hot massage globes a. Perform steps 3a through 3c as described above. b. Wipe the skin with wet 4x4 pads to remove the Foam-A-Zym™.
4. Remove Enzymes and Continue with Treatment	a. Use choice of Phyto-Gel Cleanser or CleanRefresh™ Foaming Oil Cleanser to cleanse the skin and ensure all remaining Foam-A-Zym™ residue is thoroughly eliminated. Remove the cleanser with dry pads first, then with moist pads until the skin is completely clean. b. Wipe the skin with pads moistened with Facial Lotion or the ideal lotion of choice. c. Continue with the next steps of the chosen treatment.

TREATMENT CONTRAINDICATIONS

Skin irritation. Reactive Skin, or Hypersensitivity. You May Choose Another Pevonia Enzyme Option, If Needed. Do Consult The Pevonia General Recommendations and Contraindications Guidelines Before Performing This Treatment.

HOW TO SELL

MENTION THE COST PER TREATMENT (SEE COST ANALYSIS) AND THE RECOMMENDED PRODUCTS FOR HOME USE

- Pevonia Facial Cleanser and Lotion/Toner according to skin type
- Enzymo-Sphérides® Peeling Cream
- Phyto-Gel Cleanser or CleanRefresh™ Foaming Oil Cleanser
- Pevonia Moisturizer/Eye/Lip product according to skin type or concern

SAMPLES: OFFER SAMPLES (IF AVAILABLE) AND DISCUSS FEATURES VS. BENEFITS

Phyto-Gel Cleanser

Features:

- Family-friendly foaming gel that cleanses thoroughly without drying
- Alcohol-free
- Non-alkaline formula

Benefits:

- Cleanses all skin types deeply
- Leaves the skin fresh and purified
- Ideal for enzyme removal

CleanRefresh™ Foaming Oil Cleanser

Features:

- Family-friendly foaming oil that cleanses thoroughly without drying
- Non-greasy aromatic formula
- Does not alter the skin's pH

Benefits:

- Thorough cleansing without irritation
- Leaves the skin smooth and supple
- Can be used for enzyme removal

Enzymo-Sphérides® Peeling Cream

Features:

- High-tech Sphérulite® enzymatic entrapment that keeps papaya and pineapple enzymes isolated and inert until the micro-capsules break down and deliver the enzymes following application on the skin
- Water will activate the enzymes for full performance

Benefits:

- Softens and facilitates the removal of dead cells and helps reduce clogged pores
- Exfoliates and leaves a radiant complexion
- Enhances absorbency of actives

Eye/Lip Product according to concern/Pevonia Moisturizer according to skin type

Features:

- Depending on product and skin concern, high performing and proven effective formulations truly deliver essential moisture, correction of skin concerns, and protection against environmental aggressors
- Silky triphase microemulsion formulas for the ultimate deep and lasting moisturizing effect
- Eye products are safe for contact lens wearers and gentle on the eye contour

Benefits:

Depending on product and skin concern:

- Smoothing of lines and wrinkles
- Glowing and luminous effect
- Eye products can offer correction of concerns with concealing advantages
- Tauter look, and sagging prevention and support for the eye contour
- Deeply moisturizing formulas that support skin wellness

FIRE & ICE - DETOX & GLOW FACIAL MASSAGE TREATMENT

Revitalizing and refreshed appearance of the skin

TREATMENT PRESENTATION

5090-33 Foam-A-Zym™ Peel with Hyalusphere® and Retinol

5100-33 Intensifier - Collagen & Myoxy-Caviar® Ampoule

1612-22 Hyaluronic Acid HydraMist™

1519-22 Ageless Skin Collagen Mask

MAIN USE/PURPOSE

A highly effective, revitalizing treatment for a healthy, glowing, and refreshed appearance.

IDEAL/RECOMMENDED FOR

For any skin type except hypersensitive. Instant treatment to improve microcirculation.

Great for mature, dehydrated, uneven texture, dull skins, smokers, to relieve congestion, and more

MAIN INGREDIENTS

Hyalusphere® and Retinol

Caviar

Hyaluronic Acid

Marine Collagen

- Hyaluronic Acid – A unique formulation containing fragmented micro-particles of botanical Hyaluronic Acid from Sugar Beets, guaranteed for absorption for optimum deep moisturizing and skin smoothing results. Skin texture is rendered softer, plumper, and tauter, while looking healthier, resilient, luminous, and supple.
- Caviar – Intracellular extract from caviar roe made up of proteins, lipids, vitamins, and minerals that oxygenate skin tissues and stimulate cellular function to support skin de-aging
- Marine Collagen Polypeptides – Collagen polypeptides support deep moisturization, tauter skin, and plumped up lines and wrinkles by binding moisture to the skin. As a result, the skin emerges smoother and younger looking.

SCIENCE BEHIND THE TREATMENT

- Hyalusphere® – This micron-size multi-lamellar capsule structure made of botanical phospholipids bilayers houses high molecular weight vegetal hyaluronic acid, which is easily released upon breaking down under the triggers of friction and skin warmth during application. This technology confers unequaled moisture replenishment and protective actions to the skin, overcoming possible side effects of exfoliation, such as dehydration of the skin surface and irritation.
- What is Micro-Retinol®?: It is a micronized emulsion of retinol. This brand-exclusive Micro-Retinol® technology disperses tiny retinol micro-particles that are stabilized with vitamin C and E, within the skin. Serving as an expedited delivery system, Micro-Retinol® allows immediate and easy absorption as well as targeted delivery within the deeper epidermal layers, rapidly re-stabilizing the skin's normal function. Considered the "skin organizer", retinol works to energize epidermal basal cells and restore their normal activity for enhanced turnover and skin youthfulness.

TREATMENT BENEFITS

- Stimulates circulation and invigorates the skin
- Promotes the elimination of toxins throughout all layers of the skin
- Reduces stagnation of fluids
- Stimulates collagen synthesis for a more youthful-looking appearance
- Promotes deep cleansing and repair
- Increases active ingredients absorbency
- Smooths the skin texture
- Leaves the skin firmer-looking, radiant, and glowing

FIRE & ICE – DETOX & GLOW TREATMENT -PRODUCTS NEEDED:

- De-Stress Escape Aromatic Oil
- Eye Make-Up Remover
- Anti-Stress Eye Lotion
- Facial Cleanser
- Facial Lotion
- Foam-A-Zym™ Peel with Hyalosphere® and Retinol
- Phyto-Gel Cleanser or CleanRefresh™ Foaming Oil Cleanser
- Intensifier - Collagen & Myoxy-Caviar®
- Hyaluronic Acid HydraMist™
- Ageless Skin Collagen Mask
- Power Repair® Marine Collagen Cream
- Gauze or 4x4 Pads
- 2 sets of massage globes (1 set hot/1 set cold)
- YouthRenew® Tinted Cream
- Rapid-Restore Lip Balm

PREPARATION

1. Foam-A-Zym™: Pour one teaspoon of Foam-A-Zym™ gel in a product cup and set aside.
2. Intensifier - Collagen & Myoxy-Caviar®: Twist the cap of the ampoule off and empty the contents in a product cup. Set aside.
3. Set of hot globes: Boil water in a shallow teakettle or flat coffee pot and partially submerge the massage globes for 2 minutes. Make sure to keep water level below the stem seal. Set aside.
4. Set of cold globes: Pour ice cubes in a bowl with cold water and partially submerge the massage globes. Make sure to keep the water level below the globe's stem seal. Set aside.

APPLICATION STEPS: (for additional details, refer to Pevonia “How to/Standards” document)

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute. (with De-Stress Escape Aromatic Oil)
2. Cleanse	a. Perform standard eye, face, and lip cleansing with Facial Cleanser and Lotion. Blot skin dry.
3. Exfoliate	a. Cover eyes and eyebrows with eye pads moistened with Anti-Stress Eye Lotion. b. Apply the Foam-A-Zym™ peel with Hyalosphere® and Retinol gel in a thin layer all over the skin. Work it with fingertips until it completely adheres. <i>* Due to these high performing enzymes, a warm, tingling sensation and redness may be experienced. This temporary effect is due to the highly active and intensive formula. For best experience and results, a detailed skin consultation and analysis should be conducted.</i> c. Dip fingertips in warm water and wet the gel while working it once again. Continue wetting fingertips and reworking as needed, until the Foam-A-Zym™ foams. d. Wet gauze sheets or unfolded 4x4 pads with warm/hot water and place over the face.
4. Massage with Globes	Take the hot massage globes and roll them gently all over the gauze or 4x4 pads. Follow the recommended Fire & Ice Detox & Glow Facial Massage technique for 4 minutes (Consult the How To Standards Guide for more information)

APPLICATION STEPS: (continued)

5. Remove Enzymes	- Roll the gauze sheets or 4x4 pads down and use them to wipe the skin gently removing any of the Foam-A-Zym™ and dead cells while unclogging the skin. - Proceed with extractions, if needed. - Use the Cleanser to cleanse the skin again and ensure all remaining enzymes are eliminated. Remove the Cleanser with dry pads first, then with moist pads until the skin is completely clean. - Wipe the skin with pads moistened with Facial Lotion or the ideal lotion of choice.
6. Apply Ampoule	- Apply the Intensifier – Collagen & Myoxy-Caviar® ampoule (or ideal ampoule of choice). Massage well until it is completely absorbed. - Spray the skin with Hyaluronic Acid HydraMist™. Cover the skin with gauze sheets or unfolded 4x4 pads wet with cold water. - Take the cold massage globes and proceed with massage following the recommended Fire & Ice Detox & Glow Facial Massage technique for 4 minutes.
7. Apply Remove/Mask	- Apply the Ageless Skin Collagen Mask (or ideal mask of choice) and leave on the skin for 15 minutes. - Rinse mask with pads wet with cool water. Spray the skin with Hyaluronic Acid HydraMist™.
8. Moisturize/Protect	- Moisturizer – Apply Power Repair® Marine Collagen Cream or moisturizer of choice over face, neck, and décolleté. Massage until absorbed. - Apply Rapid-Restore Lip Balm. - Apply YouthRenew® Tinted Cream.
9. Conclusion	Finishing Mist – Gently mist 2 sprays of Hyaluronic Acid HydraMist™.

TREATMENT CONTRAINDICATIONS

SKIN IRRITATION. (SKIP ENZYME STEP ON REACTIVE/HYPERSENSITIVE SKIN OR CHOOSE ANOTHER PEVONIA ENZYME OPTION). DO CONSULT THE PEVONIA GENERAL RECOMMENDATIONS AND CONTRAINDICATIONS GUIDELINES BEFORE PERFORMING THIS TREATMENT

pevonia®

MICRO-RETINOL® COLLAGEN & RETINOL LIP REPAIR

Rejuvenating and Smoothing Treatment for Lip and Lip Contour

TREATMENT PRESENTATION

3806-22 Micro-Retinol® Collagen & Retinol Lip Repair (5 Applications)

[Box consists of: 5 sheet masks and 1 (3ml) Micro-Retinol® Essential Serum]

MAIN USE/PURPOSE

A highly effective, revitalizing and rejuvenating mask treatment for a radiant and plumped appearance to the lip and lip contour area.

IDEAL/RECOMMENDED FOR

For rejuvenating and smoothing of the lip and lip contour, and to deliver radiance.

Great for mature, wrinkled, and dehydrated lip skin; uneven texture, sun damage, smokers, etc.

MAIN INGREDIENTS

Collagen Fiber and Algae Oligosaccharides sheet mask infused with Micro-Retinol®

SCIENCE BEHIND THE TREATMENT

- Collagen Fiber and Algae Oligosaccharides sheet mask infused with Micro-Retinol®: Marine collagen protein fibers combine with Algae Oligosaccharides from Laminaria digitata and are laid as a matrix sheet infused with Pevonia's exclusive microemulsion of retinol technology: Micro-Retinol®, to create a superb vehicle for precise active ingredients diffusion into the skin that

deeply moisturizes, plumps, smooths, revitalizes, rejuvenates, and protects.

- What is Micro-Retinol®?: It is a micronized emulsion of retinol. This brand-exclusive Micro-Retinol® technology disperses tiny retinol micro-particles that are stabilized with vitamin C and E, within the skin. Serving as an expedited delivery system, Micro-Retinol® allows immediate and easy absorption as well as targeted delivery within the deeper epidermal layers, rapidly re-stabilizing the skin's normal function. Considered the "skin organizer", retinol works to energize epidermal basal cells and restore their normal activity for enhanced turnover and skin youthfulness.

TREATMENT BENEFITS

- Revitalizes, redefines, and rejuvenates the lip and lip contour
- Promotes the appearance of instant visible skin smoothing and radiance
- Deeply moisturizing and protective treatment
- Superlative active ingredients absorbency
- Breakthrough technology for expedited, amplified, and long-lasting results

MICRO-RETINOL® COLLAGEN & RETINOL LIP REPAIR - PRODUCTS NEEDED:

- De-Stress Escape Aromatic Oil
- CleanRefresh™ Foaming Oil Cleanser
- Hyaluronic Acid HydraMist™
- Enzymo-Sphérides® Peeling Cream
- Micro-Retinol® Collagen & Retinol Lip Repair (1 Sheet Mask)
- Micro-Retinol® Essential Serum
- Micro-Retinol® Essential Moisturizer
- YouthRenew® Tinted Cream

TREATMENT CONTRAINDICATIONS

SUNBURN, REACTIVE/HYPERSENSITIVE SKIN, PREGNANCY, USE OF PRESCRIPTION TOPICAL VITAMIN A PRODUCTS WITHIN 48 HOURS, USE OF ACIDS WITHIN 48 HOURS, ETC. DO CONSULT THE PEVONIA GENERAL RECOMMENDATIONS AND CONTRAINDICATIONS GUIDELINES BEFORE PERFORMING THIS TREATMENT

PREPARATION

1. Prepare the Moistening Solution: Mix 2 tablespoons of water with 1 tablespoon of Hyaluronic Acid HydraMist™, Set aside.

APPLICATION STEPS: (for additional details, refer to Pevonia “How to/Standards” document)

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	When performing the Collagen & Retinol Lip Repair as a standalone treatment, gently cleanse only the area from the jawline, lower half of the face to the sides, nasolabial folds, and the sides of the nose. Use only one pump of cleanser. When the treatment is performed as an add on to a facial, cleanse as usual performing the cleansing routine over the entire face.
3. Exfoliate	a. Apply the Enzymo-Sphérides® Peeling Cream on lip contour and surrounding lip area (nasolabial lines, chin, entire lower center of the face). b. Wet your fingertips with warm water and work the Peeling Cream gently. Leave peeling cream on skin for 3 minutes. c. Wet your fingertips with warm water and work the Peeling Cream one more time. d. Remove the Peeling Cream thoroughly with pads wet with warm water
4. Remove Enzymes	a. Foam a small quantity of CleanRefresh™ Foaming Oil Cleanser between wet palms. Apply on lip contour, work it gently. b. Remove with pads wet with warm water. c. Wipe the skin with Hyaluronic Acid HydraMist™ and blot skin dry.
5. Apply Serum/ Massage Lips	a. Apply 3 to 4 drops of Micro-Retinol® Essential Serum around and on the lips. Proceed with massage.
6. Apply Sheet Mask	a. Using a cotton pad wet the skin with the prepared moistening solution, wet the skin around the lips covering nasolabial lines and chin. b. Take 1 Micro-Retinol® Collagen & Retinol Lip Repair Mask and apply onto the moistened skin: velvety side down and gauze side facing you. The Mask will adhere to skin, covering lips and the entire lower, center area of the face. c. Using the same cotton damp with same moistening solution, wet mask thoroughly. Press down with medium pressure using thumbs over the center of the upper lip and move in an outward direction, while smoothing the gauze. Repeat the same procedure over the chin until the gauze is completely adhered. Leave on for 15 minutes.
7. Remove Mask/ Moisturize & Protect	a. Remove mask. Do not wipe skin. b. Apply a small quantity of Micro-Retinol® Essential Moisturizer on lips and lip contour. Massage gently until absorbed. c. Apply YouthRenew® Tinted Cream
8. Conclusion	Finishing Mist – Gently mist 2 sprays of Hyaluronic Acid HydraMist™

- Micro-Retinol® Collagen & Retinol Lip Repair (3 applications)
- Micro-Retinol® Essential Foaming Cleanser
- Micro-Retinol® Essential Serum
- Micro-Retinol® Essential Moisturizer
- Enzymo-Sphérides® Peeling Cream
- Hyaluronic Acid HydraMist™
- Eye product according to concern

SAMPLES: OFFER SAMPLES (IF AVAILABLE) AND DISCUSS FEATURES VS. BENEFITS

Micro-Retinol® Essential Foaming Cleanser

Features:

- Foaming gel formula that cleanses thoroughly
- Non-stripping
- Contains Micro-Retinol, Hyaluronic Acid, Vitamin C
- Alcohol-free

Benefits:

- Cleanses thoroughly, leaving the skin soft without over drying
- Leaves the skin radiant and rejuvenated
- Prepares the skin for best results

Micro-Retinol® Essential Moisturizer

Features:

- Triphase and homogenized
- Soft and silky texture that spreads evenly
- Contains Micro-Retinol®, Marine Collagen and Elastin, Hyaluronic Acid, Vitamin C

Benefits:

- Repairs damage
- Resurfaces and refines texture
- Smooths lines and wrinkles
- Delivers radiance
- Moisturizes deeply

Enzymo-Sphérides® Peeling Cream

Features:

- High-tech sphérulites enzymatic entrapment that keeps papaya and pineapple enzymes isolated and inert until the sphérulites break down and deliver the enzymes after application on the skin
- Water will activate the enzymes for full performance

Benefits:

- Softens and facilitates the removal of dead cells and helps reduce clogged pores
- Exfoliates and leaves a radiant complexion
- Enhances absorbency of actives

Eye Product according to concern

Features:

Depending on product and skin concern

- High performing eye contour gentle and effective formulations that deliver hydration, correction, and protection
- Safe for contact lens wearers

Benefits:

Depending on product and skin concern

- Helps smooth appearance of lines and wrinkles
- Blurs imperfections, concealing effect
- Toning and sagging prevention (eye bags)
- Deeply moisturizing for eye contour

TREATMENT PRESENTATION

Your choice of Enzyme Treatment

Your choice of Mask Treatment

MAIN USE/PURPOSE

Cleansing & preparing the skin for further treatments.

IDEAL/RECOMMENDED FOR

The Essential Deep Cleansing Treatment is recommended for first-time guests as their foundation treatment. This professional skin cleansing is ideal for ridding impurities, cleaning out the follicles via extractions (if applicable), balancing the skin, reducing any sensitivity, and repairing the epidermal barrier.

Pevonia International recommends that the first Essential Deep Cleansing Treatment be scheduled for 15-30 minutes longer than regular facial times. This additional time will present the opportunity to include a thorough consultation and detailed skin analysis, to design a treatment journey program and recommend a customized self-care regimen based on the guest's product personality.

MAIN INGREDIENTS

- Enzymo-Sphérides Peeling Cream - Encapsulated Papain & Bromelain, Horse Chestnut, Chamomile, Arnica, Calendula, Saponaria, and Lemon Extract
- Enzymes Powder Mask - Oat Flour, Corn Starch, Papain, Bromelain, and Lipase
- Foam-A-Zym™ Peel with Hyalusphere® and Retinol – Encapsulated Hyaluronic Acid, Micro-Retinol, Papain, Bromelain, and Lipase
- Ageless Skin Collagen Mask – Collagen Polypeptides, Green Tea, Mandarin Orange Peel Extract
- Bright Skin Green Apple Mask – Green Apple, Red Clover, Arnica
- Pure Skin Charcoal Mask – Micronized Charcoal, Shea Butter, Grapefruit

SCIENCE & BENEFITS BEHIND THE TREATMENT

- Enzymo-Sphérides Peeling Cream – After a thin layer is applied to the skin, wet fingertips, and work product on

the skin. This friction will cause the encapsulating Sphérulites to open, exposing papain and bromelain to water, and activating them to begin digesting keratinized cells. Choose Enzymo-Sphérides Peeling Cream for skin that does not require extractions.

- Enzymes Powder – When mixed with water and applied under steam, papain and bromelain enzymes effectively digest dead skin cells, while lipase softens hard and coagulated sebum, and a base of oat flour calms and soothes the skin. Choose Enzymes Powder Mask for skin that requires minimal extractions.
- Foam-A-Zym™ Peel with Hyalusphere® and Retinol – The ideal skin smoothing exfoliant for multiple skin concerns. Aging skin, a skin with a thickened epidermis, congested skin, and the perfect prep for maximum extraction removal. During application, encapsulated Sodium Hyaluronate is released to deeply moisturize and combat irritation, while micro-retinol particles resurface the skin and facilitate exfoliation for the removal of impactions. Can be used on the skin in three ways:
 1. Apply to skin, manipulate, add water and foam, let sit for 3-5 minutes, repeat.
 2. Apply to skin, manipulate, add water and foam, apply 3 gauze pads (mummy mask), and use warm facial massage globes.
 3. Apply to skin, manipulate, apply steam, add water and foam – maintain under steam for 5-7 min.
- Ageless Skin Collagen Mask – Choose for skin showing signs of photo-damage and aging; use on neck and décolleté as a “secondary mask” while using other face mask choices; it can also be used on hands as a rejuvenating hand treatment during facials.
- Bright Skin Green Apple Mask – Choose for dull, combination skin. Can be used on T-Zone, or target areas showing signs of uneven texture and tone. A great complement to use with the Pure Skin Charcoal Mask
- Pure Skin Charcoal Mask – Choose this mask for congested, acne-prone skin, or for detoxification of skins exposed to extreme environments.

ESSENTIALS DEEP CLEANSING TREATMENT (CUSTOMIZABLE) – PRODUCTS NEEDED

Choice of Aromatherapy Oil:

- Dry, Sensitive, De-Stress Escape Aromatic Oil

- Eye Make-up Remover

- Anti-Stress Eye Lotion

- Facial Cleanser & Facial Lotion

Choice of Enzyme Treatment:

- Enzymo-Sphérides Peeling Cream
- Enzymes Powder Mask
- Foam-A-Zym™ Peel with Hyalusphere® and Retinol

Choice of Cleanser:

- CleanRefresh™ Foaming Oil Cleanser
- Phyto-Gel Cleanser
- Micro-Emulsion Massage Cream

Choice of Eye Treatment:

- Evolutive Eye Gel
- Evolutive Eye Mask

Choice of Mask:

- Ageless Skin Collagen Mask
- Bright Skin Green Apple Mask
- Pure Skin Charcoal Mask
- Reactive Skin Care Cream

Choice of Aroma:

- Hyaluronic Acid HydraMist™
- Phyto-Aromatic Mist

TREATMENT CONTRAINDICATIONS

Allergies to specific product components; hypersensitivities; open lesions, sunburn, medical contraindications; etc. Please check contraindications to general treatments.

PREPARATION

1. If choosing Enzymes Powder:

Mix ½ tsp. of Enzymes Powder Mask with a small quantity of water to create an oatmeal-like consistency.

For all other enzymes:

Pour a small amount in a product cup and set aside.

APPLICATION STEPS: (for additional details, refer to Pevonia “How to/Standards” document)

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute.
2. Cleanse	a. Eye Cleansing - Perform standard eye cleansing technique, and follow with Anti-Stress Eye Lotion b. Face Cleansing – Perform standard face cleansing routine, remove with warm 4x4 pads (option: steamed towel) and follow with toner/lotion.
3. Exfoliate	• Normal to Dry Skin: Choose Enzymo-Sphérides Peeling Cream – apply according to the instructions on the "How To/Standards" document. OR • Normal to Oily Skin: Choose Enzymes Powder Mask – apply according to the instructions on the "How To/Standards" document. OR • Oily and Congested: Choose Foam-A-Zym™ Peel with Hyalusphere® and Retinol – apply according to the instructions on the "How To/Standards" document. *Steam (if applicable) **Extractions (if applicable)
4. Remove Enzymes	a. Remove enzymes with 4x4s, perform extractions if needed, then pass another set of wet 4x4s before choosing a foaming cleanser. Make sure not to get any enzymes in the water bowl. • Normal to Dry Skin: Choose CleanRefresh™ Foaming Oil Cleanser OR • Normal to Oily Skin: Choose Phyto-Gel Cleanser b. Dispense a dime-size amount of the foaming cleanser of choice to hands and add water. Foam cleanser between palms, apply to face, and then move over the skin to ensure all traces of enzymes are thoroughly removed. c. Remove foaming cleansers with a DRY set of 4X4 pads first, and then follow with another set of wet 4x4 pads.
5. Perform Face Massage	For Facial Massage use Micro-Emulsion Massage Cream • Normal to Dry Skin: After massage, the Micro-Emulsion Massage Cream may be left on the skin under the mask as an infusion treatment. OR • Normal to Oily Skin: Remove Micro-Emulsion Massage Cream after massage.
6. Apply Remove/ Mask	a. Eye Mask – Apply Eye Mask around both eye contours, and cover with eye pads moistened with Anti-Stress Eye Lotion. • Normal to Dry Skin: Choose Evolutive Eye Cream (Eye Mask) OR • Normal to Oily Skin: Choose Evolutive Eye Gel b. Face Mask -Apply choice of face mask in a thin layer to both face and neck. • Normal to Dry Skin, Premature Aging - Ageless Skin Collagen Mask • Combination, Uneven, Dull Skin - Bright Skin Green Apple Mask • Normal to Oily, Congested, Acne-Prone Skin – Pure Skin Charcoal Mask c. During mask, massage arms and hands with a pea-size amount of Micro-Emulsion Massage Cream. (Option: use a steamed towel on arms and hands to remove the Micro-Emulsion Massage Cream) d. Remove face mask with cool 4x4 pads (option: cool towel); remove eye mask with eye pads. e. Follow with Facial Lotion.
7. Moisturize/Protect	Apply Reactive Cream
8. Conclusion	Finishing Mist – Gently mist 3 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

HOW TO SELL

MENTION THE COST PER TREATMENT (SEE COST ANALYSIS) AND THE RECOMMENDED PRODUCTS FOR HOME USE

- Cleanser and Toner according to skin type or concern
- Eye product according to concern
- Moisturizer according to skin type or concern
- De-Stress Escape Aromatic Oil

SAMPLES: OFFER SAMPLES (IF AVAILABLE) AND DISCUSS FEATURES VS. BENEFITS

Phyto-Gel Cleanser

Features:

- Family-friendly foaming gel that cleanses thoroughly without drying
- Alcohol-free
- Non-alkaline formula

Benefits:

- Cleanses all skin types deeply
- Leaves the skin fresh and purified
- Ideal for enzyme removal

CleanRefresh™ Foaming Oil Cleanser

Features:

- Family-friendly foaming oil that cleanses thoroughly without drying
- Non-greasy aromatic formula
- Does not alter the skin's pH

Benefits:

- Thorough cleansing without irritation
- Leaves the skin smooth and supple
- Can be used for enzyme removal

Eye Product according to concern

Features:

- Depending on product and skin concern, high performing eye contour gentle and effective formulations that deliver hydration, correction, and protection
- Safe for contact lens wearers

Benefits:

- Depending on product and skin concern:
- Smoothing of lines and wrinkles
- Lightening, brightening, concealing
- Firming and sagging prevention (eye bags)
- Deeply hydrating for eye contour

Moisturizer according to skin type or concern

Features:

Depending on product and skin concern:

- Result-driven high-performing triphase, microemulsified moisturizing formulations deliver specialized benefits (repairing, soothing, renewing, enlivening, corrective, and protective)
- All Pevonia moisturizers reduce TEWL (Transepidermal water loss) and increase NMF (Natural Moisturizing Factor)
- Contain a selection of high-quality ingredients and breakthrough green (natural) technologies, encapsulation, and delivery systems

Benefits:

Depending on product and skin concern:

- Rejuvenating and normalizing cell functions
- Smoothing of lines, wrinkles, and overall skin texture
- Toning and diminishing sagging appearance
- Gleaming skin, concealing effect, repairing, and corrective results
- Deeply moisturizing and revitalizing benefits

CHOCOLATE INDULGENCE FACE MASK TREATMENT

(Deeply Moisturizing Aromatic Wellness Experience)

TREATMENT PRESENTATION

1900-22 Chocolate Indulgence Foaming Salt Scrub
Face & Body

1902-22 Chocolate Indulgence Massage Oil Face & Body

1901-22 Chocolate Indulgence Moisturizer Face & Body

1903-22 Chocolate Indulgence Mask Face & Body

MAIN USE/PURPOSE

To deeply moisturize, instantly smooth and plump fine lines and wrinkles, repair, rejuvenate, revitalize, and provide an aromatic wellness experience.

IDEAL/RECOMMENDED FOR

All facial skin types, especially dry, dehydrated, dull, wrinkled, flaccid, mature, menopausal, with rough or uneven texture, etc. Ideal couple's treatment for Valentine's Day, or at any time for the utmost self-pampering. Can also be applied as a body mask or wrap treatment.

MAIN INGREDIENTS

- Theobroma Cacao (Chocolate)
- Marine Collagen Polypeptides
- Beta-Glucan
- Sodium Hyaluronate
- Pea Extract
- Sea Salt

SCIENCE & BENEFITS BEHIND THE TREATMENT

- Theobroma Cacao (Chocolate) – It is laden with organic compounds that are biologically active and function as antioxidants; these include polyphenols, flavonoids, catechins, etc. One important antioxidant in chocolate is theobromine, which gives its properties and benefits, but also stimulates blood flow and supports healthy cell metabolism. Likewise, Chocolate contains important minerals like potassium, phosphorus, zinc, selenium, calcium; and vitamins A, B1, C, D, and E. As it is nutrient-dense, those elements can help keep the skin looking youthful and plump by preventing or reducing the breakdown of collagen and elastin. It has an indulgent, pleasant aroma.
- Marine Collagen Polypeptides – Collagen amino acid chains that absorb easily to plump and smooth fine lines

and wrinkles, while supporting deep skin moisture levels.

- Beta-Glucan - Natural polysaccharide extract from non-GMO oats, which strengthens and supports skin immunity for long-lasting wellbeing.
- Sodium Hyaluronate - A superior ingredient made of microparticles of botanical Hyaluronic Acid from Sugar Beets and guaranteed for absorption for optimum deep moisturizing and skin smoothing results. Upon absorption, the skin texture is rendered softer, plumper, and tauter, while looking healthier, resilient, luminous, and supple.
- Pea Extract - Provides amino acids support for collagen and elastin proteins. It helps promote skin resilience and enhances moisture levels within the skin.
- Sea Salt - As the sea salt granules gently exfoliate and dissolve, the skin is enriched throughout its layers with beneficial negative ions that cancel out the (damaging) positive ions from environmental and multiple other sources, to reveal healthy looking and rejuvenated skin.

TREATMENT BENEFITS

- Deeply repairing and moisturizing dual-functional treatment for face and body
- Stimulates circulation and infuses antioxidants and nutrients
- Helps the skin appear firmer and tauter
- Revitalizing and invigorating
- Rejuvenating
- Protective
- Relaxing and soothing
- Delightful aromatic experience that pleases the senses
- Renders the skin soft, smooth, and visibly luminous
- Promotes healthy cell metabolism

CHOCOLATE INDULGENCE FACE MASK TREATMENT – PRODUCTS NEEDED

- Eye Make-up Remover
- Anti-Stress Eye Lotion
- Facial Cleanser & Facial Lotion
- Chocolate Indulgence Foaming Salt Scrub Face & Body
- Chocolate Indulgence Massage Oil Face & Body

Choice of Eye Treatment:

- Evolutive Eye Gel OR • Evolutive Eye Mask
- Chocolate Indulgence Mask Face & Body Chocolate Indulgence Moisturizer Face & Body

Choice of Aroma:

- Hyaluronic Acid HydraMist™ OR • Phyto-Aromatic Mist

APPLICATION STEPS: (for additional details, refer to Pevonia “How to/Standards” document)

1. Inhalation Ritual	WellnessFusion® Inhalation Ritual for 1 minute. (You may use the De-Stress Escape Aromatic Oil or the Chocolate Indulgence Massage Oil Face & Body for a synergistic effect)
2. Cleanse	a. Eye Cleansing - Perform standard eye cleansing technique, & follow with Anti-Stress Eye Lotion b. Face Cleansing – Perform standard face cleansing routine, remove with warm 4x4 pads (option: steamed towel) and follow with toner/lotion.
3. Exfoliate	a. Cover eyes and eyebrows with eye pads moist with Anti-Stress Eye Lotion. b. Apply a thin layer of Chocolate Indulgence Foaming Salt Scrub directly to facial skin, and gently work the salts all over using fingertips to perform exfoliation. Wet your hands with warm water and keep working the salts gently until you obtain foam. Continue with exfoliation until all the salt is dissolved. c. Wipe the skin with dry pads first, then with moist pads wet with warm water. Make sure all foam residue is removed. Follow with Facial Lotion. Blot skin dry.
4. Perform Face Massage	a. Dispense about 5 drops of the Chocolate Indulgence Massage Oil Face & Body on the palm of your hand. Apply to the skin and spread lightly over all areas of the face, neck, and décolleté. b. Proceed with massage using your preferred facial massage modality for the desired length of time. Use more massage oil if needed.
5. Apply Remove/ Mask	a. Eye Mask – Apply Eye Mask around both eye contours, and cover with eye pads moistened with Anti-Stress Eye Lotion. • Normal to Dry Skin: Choose Evolutive Eye Cream (Eye Mask) OR • Normal to Oily Skin: Choose Evolutive Eye Gel b. With a facial brush, apply a thin layer of the Chocolate Indulgence Mask Face & Body all over face and neck. Leave on for 15 minutes. c. During mask, massage arms and hands with a pea-size amount of Chocolate Indulgence Massage Oil. d. Remove Chocolate Indulgence Mask Face & Body with cool 4x4 pads; remove eye mask with eye pads. e. Follow with Facial Lotion. Blot skin dry.
6. Moisturize/Protect	As a final step, apply a small amount of the Chocolate Indulgence Moisturizer Face & Body over face, neck, and décolleté. Massage gently until completely absorbed.
7. Conclusion	Finishing Mist – Gently mist 3 sprays of Phyto-Aromatic Mist or Hyaluronic Acid HydraMist™

NOTE: This treatment can also be performed on the body. Please refer to the respective Chocolate Indulgence Body Mask Treatment Study Guide.

TREATMENT CONTRAINDICATIONS

Recent sun exposure, skin irritation, recent cosmetic procedures or surgeries, open wounds, unknown lesions, etc. See list of body treatment contraindications.
